Q2

Teacher(s)	Byrne Timothy (coordinator) ;Dalleur Olivia ;
Language :	French
Place of the course	Bruxelles Woluwe
Prerequisites	Students should have followed the intermediate-level course LANGL 1855 (BAC 2) or a course of a similar level. <i>The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.</i>
Main themes	Students will take part in activities that will allow them to use and develop their communication skills and mastery of the language (principally speaking skills) in situations such as: <ul style="list-style-type: none"> - Reading complex scientific texts' as well as understanding their content-specific and content-compatible vocabulary - Presentations on scientific topics - Participation in and leading of group projects and meetings Negotiations, exchanging ideas, building up an argument
Learning outcomes	<p>At the end of this learning unit, the student is able to :</p> <p>Reading Comprehension 'Students should be able to read autonomously and understand in detail scientific texts and specialised articles related to their field of studies The level to reach is B2+ of the "Common European Framework for Languages"</p> <p>Speaking Skills Individual: Students should be able to present a scientific topic in a clear and methodical way with only occasional reference to their notes 1 Interactive: Students should be able to communicate fluently and effectively in meetings and conversations on both social and professional topics The level to reach is B2+ of the "Common European Framework for Languages" The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this document, in the section entitled 'Programmes/ courses offering this Teaching Unit'.</p>
Evaluation methods	<p>Continuous assessment (50 %) (class preparation, participation in all class activities, with a particular emphasis on an oral presentation given in class, vocabulary test, pronunciation test</p> <p>Oral exam (50 %): a presentation on a scientific topic related to the student's field of studies. This will be done in collaboration with a Professor from the 'Ecole de Pharmacie' (Prof. Dalleur, who will be in charge of 1/3 of the grading of the oral exam).</p>
Teaching methods	Workshop Groups of maximum 18 students
Content	Students will be given a host of language aids (communication techniques, language functions, general and specialized vocabulary, grammatical points) and resources (written documents, audio-visual supports, internet sites) before each activity, thus enabling them to participate fully in each situation, the ultimate goal of the course being a presentation on a scientific topic related to their field of studies. Feedback and remedial sessions will be provided. Detailed instructions concerning each activity will be provided beforehand.
