## Economic Analysis Seminar I

5.00 credits	30.0 h	Q1

Language :	English
Place of the course	Namur
Main themes	The teacher proposes an issue to be addressed by the students (for example, is the Walloon Marshall Plan effective?).  Students - identify the theoretical elements that address the issue. They identify the logic that guides the economic question; - They identify empirical methods that would answer the question; - They collect data relevant to the empirical analysis; - They perform the empirical analysis; - They interpret the results and explain the problems and the underlying statistical limits.
Learning outcomes	At the end of this learning unit, the student is able to:  At the end of the activity, students will be able  - to synthesize the elements that are essential to the understanding of a generic economic problem,  - to collect, select and analyze relevant data and information using rigorous and state-of-the-art  methods  - to express a message in a clear, concise and structured way, both orally and in writing,  - to manage their work: set priorities, anticipate and plan all the relevant steps,  - to work in team.
Content	Course taught at UNamur - please consult seminar description via ESL intranet - UNamur course code ECONM827 https://directory.unamur.be/teaching/courses/ECONM827
