Q1

Teacher(s)	Jonckheere Alexia ;
Language :	French
Place of the course	Louvain-la-Neuve
Learning outcomes	<p>At the end of this learning unit, the student is able to :</p> <p>The aim of this seminar is to teach the student mastery of the basic techniques of university work:</p> <ul style="list-style-type: none"> - understanding the notions of analysis, synthesis, summary, theory and empirical understanding, - research into and use of bibliographical sources, compiling notes from reading, using reference convention, - learning editing standards, and in particular the rules relating to plagiarism. <p>This learning process also focuses on dealing with the problems involved in practical research.</p>
Evaluation methods	<p>For the seminar: continuous evaluation (written exam in October and written exam in session). For the practical work: personal work.</p> <p>Attendance at practical sessions is required. In accordance with article 72 of the General Regulations for Studies and Examinations, the Professors may propose to the jury that a student who has at least two unjustified absences for the practical sessions, be refused registration for the January, June or September session.</p>
Content	<p>First part of seminar involves lessons "ex-cathedra" (reviews and definition of scientific concepts, criticizes sources,...).</p> <p>The seminar methodology involves also - active participation and group work by students. - some compulsory reading.</p>
Inline resources	<p>Mainly, the Infosphere tutorial. See https://bib.uclouvain.be/infosphere/ But also Moodle.</p>
