Q1

This biannual learning is being organized in 2022-2023

Teacher(s)	Sabel Joachim ;
Language :	Deutsch
Place of the course	Louvain-la-Neuve
Prerequisites	/
Main themes	We will discuss the actual literature on morphological, syntactic, and semantic topics and its implications for modern linguistic theory. Description and explanation of grammatical phenomena in German, also with respect to similar phenomena in related languages (for example, English and French). Content will vary according to students' interests. A wide range of topics will be proposed.
Learning outcomes	At the end of this learning unit, the student is able to : 1 At the end of the seminar, students should have developed insight into the research methods in different areas of German and comparative (theoretical) linguistics. They should be able to formulate research hypotheses and to develop research methods / strategies to verify these hypotheses.
Evaluation methods	The evaluation will be based on students' active involvement in the seminar. It will also involve an oral presentation on a topic of their choice in relation to the themes of the seminar.
Content	The seminar deals with the above mentioned topics via lectures, reading of scientific articles, presentations, and discussions.
Faculty or entity in charge	ELAL
