Teacher(s)	Bosmans Hilde (coordinator) ;De Rycke Katrien ;
Language :	Dutch
Place of the course	Louvain-la-Neuve
Main themes	<p>The topics addressed during the classes aim at arousing the interests of young adults: we shall speak about hobbies, leisure, holidays, studies and possible future professions, daily life and contemporary events, trips and relations with others, and the culture (that is, the habits and customs) of the countries that speak the target language.</p> <p>This course will concentrate upon both communicative aspects and formal language correction (at the level of pronunciation and grammar for example)</p>
Learning outcomes	<p>At the end of this learning unit, the student is able to :</p> <p>By the end of this learning unit, the student should have reached an upper-intermediate level in four areas:</p> <ol style="list-style-type: none"> 1. listening (B2-) 2. reading (B2-) 3. speaking (B1+) both individual and interactive 4. writing (B1+)

<p>Evaluation methods</p>	<p>If the health situation permits, i.e.: face-to-face courses: permanent evaluation throughout the year. Numerous compulsory tests will be organised during the semester in the form of continuous monitoring. The evaluation will consist of four parts, in accordance with the objectives pursued and will deal with the same topics as those covered (convergent use of the acquis). The assessment of the code (vocabulary and grammar) will be integrated into the assessments of skills (oral and written).</p> <table border="1" data-bbox="395 280 1252 616"> <thead> <tr> <th></th> <th>test 1 + 2</th> <th>test 3</th> <th>total</th> </tr> </thead> <tbody> <tr> <td>Listening comprehension assessment (analytical and global)</td> <td>5%</td> <td>10%</td> <td>15%</td> </tr> <tr> <td>Reading comprehension assessment + vocabulary</td> <td>10%</td> <td>25%</td> <td>35%</td> </tr> <tr> <td>Assessment of written expression</td> <td>10%</td> <td>10%</td> <td>20%</td> </tr> <tr> <td>Assessment of oral presentation (individual and interactive)</td> <td>10%</td> <td>20%</td> <td>30%</td> </tr> </tbody> </table> <p>Written (= test 3) and oral examination in week 14.</p> <p>If the health situation (or other crisis situation) does not allow for ongoing assessment (e.g. due to a switch to distance learning), then:</p> <ul style="list-style-type: none"> • The written evaluation during the courses will be replaced by a written distance exam in week 14 (Q1) or during the January session (Q1): vocabulary, listening and reading comprehension, written expression and grammar = 80% of the final mark). Teachers will place mock tests on the Moodle platform. Participation in these mock tests can earn the student a bonus point for the written part. • Oral presentations on Teams during the year count for 5% of the final grade, and the oral exam on Teams, based on the themes covered in the course and questions related to the course content, for 15% of the final grade. Vocabulary questions may also be asked during this oral examination. <p>If the written examination can't take place on campus, it will be cancelled and replaced only by the presentations and the oral assessment based on the themes covered in the course, questions relating to the course content and vocabulary questions. This mark will then constitute 100% of the final mark.</p> <p>Taking into account the health situation, if the possibility is given to us to organise a face-to-face written exam, we will opt for this possibility and will organise a face-to-face written exam covering vocabulary, written expression and listening and reading comprehension.</p> <p>The oral examination would be maintained as a supplement to assess the students' oral communicative skills.</p> <p>Attention:</p> <p>All tests in week 14 or during the January session are compulsory. If you are absent (without official justification) for any part of the assessment, this will imply an "absence" mark for the whole assessment. A student who fails to take part of the assessment will therefore be disqualified from taking the other parts of the assessment. If you are absent without official justification for tests during the term, you will receive a 0/20 for the test(s). The oral examination is based on the content of the texts seen and a portfolio of activities in Dutch which the student has compiled in the course of the semester. Without a portfolio, the student cannot participate in the oral examination.</p> <p>Attendance at the course (in person or by distance learning) is compulsory. If the teacher deems it useful, he/she may propose to the jury to oppose the registration to the course examination of a student who has not followed the learning activities regularly (RGEE - art. 72).</p> <p>In the June/September session, the student is required to re-submit all the material for the written examination + the oral examination. The mark for the permanent assessment (= the presentation), obtained during the year, is given when it is in the student's favour. In the June/September examination, the student therefore only retakes the written part and the oral examination, not the presentations.</p>		test 1 + 2	test 3	total	Listening comprehension assessment (analytical and global)	5%	10%	15%	Reading comprehension assessment + vocabulary	10%	25%	35%	Assessment of written expression	10%	10%	20%	Assessment of oral presentation (individual and interactive)	10%	20%	30%
