45.0 h

Q1

Teacher(s)	Kohut Taylor ;
Language :	French
Place of the course	Louvain-la-Neuve
Learning outcomes	
Evaluation methods	<i>The assessment includes a written MCQ exam and/or open questions (80% of the grade). Students will also be asked to complete group work that will be presented in class (20% of the grade).</i>
Teaching methods	The lectures will be face-to-face. If the health situation related to COVID has deteriorated, other options will be considered. Attendance at the course is strongly recommended as it is an interactive course with exercises to be carried out.
Content	The topics covered during the course include: - Clinical research methodology - Prominent approaches to couple therapy (e.g., Behavioral; emotion-focused; psychodynamic; and systemic) - Applications of couple therapy to intimate partner violence and infidelity
Inline resources	Instructions for class assignments and presentations as well as course slides and reading material can be found on the course's Moodle page.
Faculty or entity in charge	EPSY
