Main themes	This unit, taught by joint lecturers, enables students to go more deeply into a research project linked to an architectural project from the starting point of a personal issue and to assess critically other students' projects on the same issues. This unit enables students to define a precise framework for their dissertation (structured question, area of study, research method, state of knowledge in the field, objective and approach).
Learning outcomes	**At the end of this learning unit, the student is able to :** 1 **Design a project** • Express and prioritise the aims of the projects so as to be able to make choices **Test an artistic approach** • To reformulate, assimilate a question and explore various possible avenues to respond to it **Place the action** • Formulate questions relating to the development of the context being studied to make working hypotheses **Make use of other subjects** • Seek out other approaches, exchanges of views and ways of enhancing thinking about architecture • Make strategic use of other subjects to put into question the design and implementation of an architectural project **Express an architectural procedure** • Express ideas clearly in oral, graphic and written form **Adopt a professional attitude** • Organise, plan, develop and bring together the different strands of individual or collective work
