

2.00 credits

7.5 h + 30.0 h

Q1 and Q2

Teacher(s)	Platten Isabelle ;
Language :	French
Place of the course	Mons
Main themes	The seminar is an opportunity for students to discover the requirements of the professional world through a first internship experience and to refine their choice of master's studies, with regard to this experience. It participates in a progressive system of SPI (Socio-Professional Integration). Students have the opportunity to familiarize themselves with classic SPI tools: CV, cover letter, skills assessment. Through various works, they are called upon to define the skills acquired during various experiences and to develop their reflective view of the company, the bachelor studies and themselves.
Learning outcomes	<p><b>At the end of this learning unit, the student is able to :</b></p> <p>Given the « competencies referential » linked to the LSM Bachelor in Management and Business Engineering, this course mainly develops the following competencies:</p> <ul style="list-style-type: none"> <li>• 1.1. Demonstrate the ability to reason independently and adopt a considered and critical approach to knowledge (academic and common sense).</li> <li>• 2.4. Apply knowledge gained from different subjects to solve a simple but concrete management problem.</li> <li>• 4.1. Identify opportunities for innovation and be creative in putting forward useful and original ideas.</li> <li>• 5.1. Understand the internal workings of a company of limited size and complexity.</li> <li>• 5.2. Understand these workings, place them in their socio-economic context and identify the interdisciplinary issues.</li> <li>• 5.3. Combine different areas of knowledge (apply concepts from different fields and compare different rationales for action) to understand a concrete problem of a company or organisation of limited size and complexity.</li> <li>• 6.2. Recognize and take into account the different points of view of team members.</li> <li>• 7.2.
