This test will confirm (or not) the student's level of English and will allow the student to be exempted (or not).</p> <p>Details of how to register for the exemption test will be published on the valves and in the document " La semaine de rentrée".</p>

Teaching methods	<p>This is an interactive course, with a focus on continuous assessment.</p> <p>As the course is interactive, it goes without saying that the evaluation also focuses on effective and regular participation: preparation of exercises proposed by the teacher, active participation in class discussions.</p> <p>It is imperative that students consult Moodle at least once a week and that they read ALL announcements posted.</p>
Content	<p>As the course is primarily aimed at developing the ability to understand unsimplified texts, the content is taken from the press in English and deals with general topics, as well as issues relating to the social and legal organisation of society. These texts also serve as a basis for lexical extension, grammar review, oral synthesis exercises and conversation exercises.</p>
