Q2

Teacher(s)	Bitzer Sonja ;
Language :	French
Place of the course	Louvain-la-Neuve
Prerequisites	<i>The prerequisite(s) for this Teaching Unit (Unité d'enseignement – UE) for the programmes/courses that offer this Teaching Unit are specified at the end of this sheet.</i>
Learning outcomes	
Evaluation methods	<p>The evaluation is based on</p> <ul style="list-style-type: none"> • the group projects and their presentation that consists in a production of a critical analysis of the use of forensic science or an integration approach of forensic science and criminology (30%), and • an oral examen (70%). <p>Attendance at this course is required. In accordance with article 72 of the General Regulations for Studies and Examinations, the Professors may propose to the jury that a student who has at least three unjustified absences for the course, be refused registration for the January, June or September session.</p>
Teaching methods	<p>Through lectures and exercises, students will be able to familiarize themselves with the contribution of such integration to the scientific world.</p> <p>The course will be organized around several group activities during which students present their work, discuss integration, present their criticism and give each other feedback.</p>
Content	<p>Study of forensic science, building on the bases acquired during the minor course. Emphasis will be placed on a critical vision of forensic science, both at the level of its application in a given legal framework, as well as at the level of its understanding and its application by its actors within this framework. An interdisciplinary approach will be emphasised, which will allow students to identify the axes of integration between criminology and forensic science, to understand and recognize the usefulness of forensic science to inform criminology and vice versa and evaluate its use.</p>
Faculty or entity in charge	ECRI
