

5.00 credits	30.0 h	Q1
--------------	--------	----

Teacher(s)	Gailly Benoît ;
Language :	English
Place of the course	Louvain-la-Neuve
Prerequisites	This course is reserved for students with a bachelor's degree in business engineering or students with equivalent quantitative method skills. <i>This class cannot be taken without LLSMS2040</i>
Main themes	See LLSMS2040
Learning outcomes	At the end of this learning unit, the student is able to : 1 See LLSMS2040
Evaluation methods	<p>Evaluation criteria</p> <ul style="list-style-type: none"> • Relevance, originality and ambition of the group project • Mobilization of key innovation management concepts and methods • Quality and scope of data, references and sources used • Professionalism and rigor of methodological approach • Ability to synthesize results and draw implications and limitations • Critical thinking, ability to nuance and entrepreneurial mindset • Clarity, style and structure of presentations (written and oral) • <i>Compliance to guidelines</i> <p>Continuous evaluation</p> <ul style="list-style-type: none"> • Type of evaluation: Preparation of group readings and group work presentation • Comments: Compulsory attendance for group workshops and corporate testimonials • The evaluation includes class participation (up to two bonus points) <p>Evaluation week</p> <ul style="list-style-type: none"> • Oral: <i>No</i> • Written: <i>No</i> • Unavailability or comments: <i>No</i> <p>Examination session (January)</p> <ul style="list-style-type: none"> • Oral: <i>No (See LSMS2040)</i> • Written: <i>No</i> • Unavailability or comments: <i>Teacher-run schedule</i> <p>Students who fail the group work can have a second chance in September (submission of an improved group work with a summary of the improvements)</p> <p><u>By submitting an assignment for evaluation:</u> you assert that it accurately reflects the facts and to do so you need to have verified the facts, especially if they originate from generative AI resources; you assert that all your sources that go beyond <i>common knowledge</i> are suitably attributed. <i>Common knowledge</i> is what a knowledgeable reader can assess without requiring confirmation from a separate source; you assert that you have respected all specific requirements of your assigned work, in particular requirements for transparency and documentation of process, or have explained yourself where this was not possible. If any of these assertions are not true, whether by intent or negligence, you have violated your commitment to truth, and possibly other aspects of academic integrity. This constitutes academic misconduct.</p>
Teaching methods	See LSMS 2040
Content	See LSMS 2040

Inline resources	See LSMS 2040
Bibliography	See LSMS 2040
Other infos	This class is coupled with LSMS 2040 Innovation Management I
Faculty or entity in charge	CLSM
