Dissertation - preparatory research for dissertation

2.00 credits		Q2

⊗ **This learning unit is not open to incoming exchange students!**

Language :	French
Place of the course	Louvain-la-Neuve
Prerequisites	The first part of the dissertation has no prerequisite but extends the work initiated by the student within the framework of the accompanying seminar LCOMU2910.
Main themes	In this first part of the dissertation, the student will report on substantial progress in the construction of his or her research or project to his or her designated promoter at the end of the LCOMU2910 seminar and during the introduction of his or her dissertation in February.
Learning outcomes	**At the end of this learning unit, the student is able to :** 1 With regard to the AA reference frame of the "master's in sciences and technologies of information and communication" program, this course contributes to the development of the following skills: AA.1.6. Designing and implementing the steps of a research.
Evaluation methods	The evaluation will be carried out by the promoter on the basis of a final report of 10K to 15K signs (spaces included; indicative bibliography not included) containing: 1.The presentation of the research subject or project and a substantiated justification of the issue at stake 2.A synthesis (possibly integrated) of at least three scientific articles related to the theme or project. 3.The drafting of a problematic with reference to the articles treated and proposal of a first central research question. 4.A proposal for a methodology for data collection, or evaluation of the effects of the device in the case of a project-master thesis. 5. A forecast Table of Contents 6. A substantial indicative bibliography 7. A realistic progress schedule during the second year of the master's program In her/his evaluation, the promoter will also take into account the student's activity during and around the meetings (max. 20% of the final grade).
Teaching methods	See contents. Individualized accompaniment.
Content	This first part of the thesis works on the basis of meetings with its promoter (number to be defined with him/her) during the first year of the master's program (generally in Q2). The aim of these meetings is to improve or reinforce the subject of the dissertation as introduced by the student in the systems. The promoter is the reference person listed on the form. **Reminder: it is imperative to obtain his or her prior agreement before introducing his or her name on the form.**
Bibliography	/
Other infos	English-friendly course : • Reading: bibliographical references in English can be provided • Questions: students can interact with their promotor in English Evaluation: students can write their final report in English (if the master thesis will be in English)
Faculty or entity in charge	ESPO
