## CPI2MC - Introduction

## CPI2MC - Admission

***For the specific conditions of this program : refer to the French version***

Decree of March 31st 2004 defining higher education, favoring its integration in the European framework of higher education and refinancing universities.

The admission requirements have to be met at the time of enrolment at the university.

All information can be obtained from the [University's Enrolment Office \(Service des inscriptions – SIC\)](#).

The following students, after meeting the conditions set by the academic authorities, have access to the complementary Master's degree with the aim of obtaining the grade that these studies sanction:

- An academic Master's degree within the same field allowing 2nd-cycle studies, including at least 120 credits
- An academic Master's degree, following a decision by the academic authorities, under the complementary conditions that they set and as a result of a motivated decision by the jury
- An academic grade which is similar to those mentioned above, issued by the Flemish Community, the German Community or the Royal Military Academy, under the same conditions
- A foreign academic grade that has been acknowledged as being equivalent to those mentioned above, in application of this decree, a European-level directive or an international convention, under the same conditions
- Under the same conditions, one or several titles or academic grade issued by the Flemish Community, the German Community or the Royal Military Academy, sanctioning 2nd-cycle studies and valued at least 300 credits by the jury, or sanctioning 2nd-cycle studies and valued at least 240 credits completed of 60 credits, the all that must be valued by the jury according to the decree of March 31st, 2004 (art 54, 5 °)

---

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

## CPI2MC - Information

### Learning outcomes

---

The general objective of this programme is to provide advanced training for psychologists who wish to work in the field of clinical psychology for children, teenagers and adults.

The precise objectives are:

- to improve practical knowledge relating to psychological interviews, psychological assessment in the areas of psychopathology, interpersonal relations and learning and development difficulties, planning and implementation of an intervention project and evaluation of its effectiveness (in coordination with other professionals), working in a network and the management of interprofessional relationships. These objectives are achieved through different kinds of teaching : for example, case analysis and discussion, learning by problem solving and presentations by professionals.
- to promote the application of theoretical and practical knowledge in a clinical environment and the acquisition of professional skills through a placement and a seminar on practice.
- to emphasize the links between theoretical and practical knowledge by producing a dissertation in the form of a detailed case study or applied research.

### Teaching method

---

Importance given to practical training : the work placement and the dissertation account for half the 120 credits in the programme. These activities are closely supervised by all the professors and assistant teaching staff at the Faculty.

### Evaluation

---

There will be a written examination for courses with high attendance. For other courses there will either an oral examination, individual work or group work. Further details can be found in the course specifications.

### Mobility and/or Internationalisation outlook

---

There are partnerships with the University of Geneva : a part of the Master in Psychology (20 credits) may be taken in this partner universitie.

### Possible trainings at the end of the programme

---

The Advanced Joint Master is an inter-university training programme worth 60 credits. At the end of the programme, a degree is jointly awarded by the partner universities (Louvain Aacademy / University of Geneva).
