OFTA2MC - Introduction

OFTA2MC - Admission

For the specific conditions of this program : refer to the French version

Decree of March 31st 2004 defining higher education, favoring its integration in the European framework of higher education and refinancing universities.

The admission requirements have to be met at the time of enrolment at the university.

All information can be obtained from the [University's Enrolment Office \(Service des inscriptions – SIC\)](#).

The following students, after meeting the conditions set by the academic authorities, have access to the complementary Master's degree with the aim of obtaining the grade that these studies sanction:

- An academic Master's degree within the same field allowing 2nd-cycle studies, including at least 120 credits
- An academic Master's degree, following a decision by the academic authorities, under the complementary conditions that they set and as a result of a motivated decision by the jury
- An academic grade which is similar to those mentioned above, issued by the Flemish Community, the German Community or the Royal Military Academy, under the same conditions
- A foreign academic grade that has been acknowledged as being equivalent to those mentioned above, in application of this decree, a European-level directive or an international convention, under the same conditions
- Under the same conditions, one or several titles or academic grade issued by the Flemish Community, the German Community or the Royal Military Academy, sanctioning 2nd-cycle studies and valued at least 300 credits by the jury, or sanctioning 2nd-cycle studies and valued at least 240 credits completed of 60 credits, the all that must be valued by the jury according to the decree of March 31st, 2004 (art 54, 5 °)

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

OFTA2MC - Information

Learning outcomes

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of specialist Doctor in Ophthalmology (Ministerial decree of 26.04.1982 published on 01.07.1982).

Evaluation

Annual evaluation.

Further to the application of the Royal Decree of 16 March, 1999, at the end of the first two years of training, the candidate will receive an attestation proving that he has successfully accomplished a specific university training course. At the end of his four years of training, the candidate will present a thesis and a publication in a specialised review. The final evaluation will be principally based on a group exam.

Upon fulfilment of the above-described training requirements, the teaching committee will award the academic title in Ophthalmology. This title does not replace official recognition by the ministerial validation committee. It attests the successful completion of an academic and scientific study programme in the context of a specialised training programme leading to this validation.

OFTA2MC - Detailed programme

Programme structure

The training course includes full time apprenticeships in recognised services and teaching centres. It lasts for at least four years, full-time, including at least two years of foundation studies and two years of higher studies. At least 24 months out of the total duration of the training will be dedicated to polyclinic activities. The apprenticeship project established by the university promotor must be approved by the ministerial validation committee for the speciality. These periods of practical training include being on call.

Programme by subject

Parallel to the practical training, the candidate specialist will follow a university course organised as follows :

part - Foundation studies (FUS)

Two years of studies consisting of :

- Theoretical courses : In-depth questions on Ophtalmology, complements of Ophtalmology
- Seminars : Seminars on Ophtalmology
- A period of supervised hospital training : Demonstrations of Ophtalmology

part - Higher studies

Two years of studies consisting of :

- Theoretical courses : In-depth questions on Ophtalmology, Complements of Ophtalmology
- Seminars : Seminars on Ophtalmology
- A period of supervised hospital training : Demonstrations of Ophtalmology

During his period of higher studies, the candidate specialist will complete his knowledge of refined exploration techniques and prescribing and carrying out of optical corrections.
