RELI1BA - Introduction

Introduction

Introduction

The bachelor's degree provides a specific training in theology including a basic training in the humanities. It gives access to the master in Theology, the Master in Biblical Studies and the Master in Religious Studies . The Faculty of Theology welcomes students from all countries, who intend to sometimes very different futures.

After the first cycle, you
have received a solid and basic education in the humanities ;
you will have dealt with issues of biblical exegesis and their relation with religious studies ;
will be able to initiate an ethical and dogmatic thinking ;
will be able to approach the biblical and Christian texts in Greek or Latin traditions ;
will have had the opportunity to put your skills to work in a first work of theological research .

Your profile

A good knowledge of spoken and written French , an aptitude for to analytical and synthetical thinking, an open mind and an interest in social and religious issues are the requirements to begin studies in religious studies and theology.

Your future job

The expert on the Christian faith is appreciated for its qualities of listening and dialogue.
He finds a job in education and, after having done additional studies, in the field of research in theology, pastoral ministry (parishes , prisons, hospitals), religious journalism , consulting or intercultural and religious mediation, etc. .

Your programme

The bachelor's degree provides a basic training in the humanities as well as specific training in theology. You will also learn the theological branches: Biblical exegesis , history and Church history, , religious studies, ethical and dogmatic thinking , etc. .

The second and third years offer more specific training in the various theological disciplines in exploring important theological issues. In addition to learning a modern language, the program also includes an introduction to the ancient languages (Biblical Greek, Latin, Hebrew).

RELI1BA - Teaching profile

Programme structure

RELI1BA - Information

Admission

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.
The admission requirements must be met prior to enrolment in the University.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

- > [General requirements](#)
- > [Specific requirements](#)
- > [Knowledge of the French language exam](#)
- > [Special requirements](#)

General requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;
5. A pass certificate for one of the [entrance examinations](#) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium (this qualification does not grant exemption from the [French language proficiency examination](#)), the German Community of Belgium or the Royal Military Academy;
7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

Note:

Requests for equivalence must be submitted no later than 14 July 2014 to the Equivalence department ([Service des équivalences](#)) of the Ministry of Higher Education and Scientific Research of the French Community of Belgium.

The following two qualifications are automatically deemed equivalent to the Certificate of Upper Secondary Education (Certificat d'enseignement secondaire supérieur – CESS):

- European Baccalaureate issued by the Board of Governors of a European School,
- International Baccalaureate issued by the International Baccalaureate Office in Geneva.

These two qualifications do not, however, provide automatic exemption from the [French language proficiency examination](#).

8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

Specific requirements

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Exam of knowledge of the French language

Anyone not demonstrating sufficient [French language proficiency](#) will not be admitted to the first-year undergraduate examinations.

Special requirements

- Admission to **undergraduate studies in engineering: civil engineering and architect**

Pass certificate for the [special entrance examination for undergraduate studies in engineering: civil engineering and architect](#).

Admission to these courses is always subject to students passing the special entrance examination. Contact the faculty office for the programme content and the examination arrangements.

- Admission to **undergraduate studies in veterinary medicine**

[Admission to undergraduate studies in veterinary medicine is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in physiotherapy and rehabilitation**

[Admission to undergraduate studies in physiotherapy and rehabilitation is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in psychology and education: speech and language therapy**

[Admission to undergraduate studies in psychology and education: speech and language therapy is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in medicine and dental science**

[Admission to undergraduate studies in medicine and dental science is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

Note: students wishing to enrol for a Bachelor's degree in Medicine must first sit an aptitude test.

Teaching method

The program is thought to support interactive participation of the students in the various theological disciplines.

In first year, the seminar "Methodology of the theology" (which includes a mentoring and an obligatory tutoring) aims at an optimal coaching of the group of the students and each one in particular. During the first year, a theoretical and practical initiation with the instruments of basic work and research, for example the sources available at the Library and on the Internet, will be ensured by the professors of all the main domains of the theology. In second and third years, the activities envisage a volume of consequent work to develop an active pedagogy initiating the student with a participative approach for the various theological disciplines.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

The evaluation will be conducted by means of the most appropriate forms of assessment decided on by the lecturers, in coherence with the objectives outlined in the course specifications. Except some [activities](#), the courses are evaluated during the evaluation periods. Most of the exams are oral.

Teaching methods are evaluated in accordance with the current University regulations (see [General regulations concerning examinations](#)). Students may also find additional information regarding the evaluation of courses in the course description.

specifically:

In first year of Bachelor program, the seminar "General methodology of theology" aims to collect the complementarity of the positive theology (biblical exegesis and history), systematic theology and practical theology. Tutoring (with a teacher chosen by the student) and coaching (with a faculty assistant) complement the methodological dimension of the formation. This will be evaluated throughout the year.

In the second and third years of the Bachelor program, an overall evaluation takes place at the end in the form of a more developed paper.

Mobility and/or Internationalisation outlook

The Faculty of Theology gives the students the opportunity to complete part of their studies abroad (via the Erasmus or Mercator exchange schemes) from the third year of the bachelor in Religious Studies.

Possible trainings at the end of the programme
