Learning outcomes

The "Bachelor in History of Art and Archaeology: General" effectively prepares students for entry into a Master's degree programme so that they can "become critical cultural players and active citizens who have an awareness of the world's socio-cultural issues and are able to involve themselves in the major challenges and issues of today's multicultural society".

By the end of their Bachelor's degree course in History of Art and Archaeology: General, graduates will have acquired a number of different academic skills, including the ability to research precise, targeted information, analyse visual, audio and written documents or works, think critically, understand and forge links between diverse and complex subjects, and write up various academic reports and other work. They will also have a broad understanding of the main frameworks of the history of Western art, from antiquity to the present day, and a certain ability to handle corpora of archaeology-related information. Moreover, they will have acquired a knowledge of the basic theory and methodology required to understand the fields of history of art and archaeology.

These outcomes will allow them to progress to a Master's programme in History of Art and Archaeology: General, with a view to focusing on one of the specialist areas offered at Master's level and acquiring professional and targeted academic skills that can be transferred to the employment market. This Bachelor's degree will also allow graduates to move towards other, related fields with the appropriate minor subject or additional studies (for instance, a Master's in History of Art and Archaeology: Musicology, a Master's in History, a Master's in Theatre Studies, etc.).

On successful completion of this programme, each student is able to :

Specifically, graduates with a Bachelor in History of Art and Archaeology, will:

1. Have an active and comprehensive understanding of the fields of history of art and archaeology.
2. Be able to study a work, object, site or issue using methods specific to archaeology and art history studies while sharpening their powers of critical thinking.
3. Be able to apply an academic approach to targeted research. This will involve the meticulous and systematic processing of a certain quantity of data and information.
4. Be accepting of different cultures and socio-professional classes.

As with all bachelors in the Faculty of Philosophy, Arts and Letters

5. Have a fundamental understanding of the fields of philosophy, history, art history, archaeology and literature.
6. Be able to understand and write competently on academic topics.
7. Be responsible for their own learning: organize their own workload (prioritizing, anticipating and planning all their activities over time), take a step back to critically assess the knowledge they have gained, how they have gained it and the work they have produced, and take the initiative to gain new knowledge and learn other methods and skills.
8. Be able to use the subject-specific knowledge and skills they have acquired to open their minds to other cultures and develop a sense of social responsibility and a critical approach to themselves, society and knowledge.
9. Have written and spoken fluency in at least one modern language (English, Dutch or German) with the ability to communicate clearly, coherently and in a well-argued fashion on general topics and subjects relating to their field of study.
10. Demonstrate a critical understanding and in-depth knowledge of the discipline(s) of their chosen minor subject.

Programme structure

The bachelor programme in History of Art and Archaeology : General totals **180 credits over 3 years** (3 x 60 credits). It consists of a basic major syllabus of 150 credits and a minor syllabus of 30 credits (2 x 15 credits), over years 2 and 3.

Three pivotal courses make up the 150 credits of the **major orientation** of the bachelor syllabus:

- (1) introduction to the human sciences** (historical criticism, arts and civilisations, European literature, analysis and practice of academic discourse, ancient and modern languages, philosophy, logic and argumentation, religious sciences);
- (2) introduction to the different epochs and geographical regions** of the artistic period, archaeological sites and the history of music, especially in Western Europe;
- (3) methodological and disciplinary training** (technology, aesthetics, auxiliary sciences, graphics documentation, museology, iconology).

The first year of undergraduate studies starts with a term of general foundation courses common to all of the faculty's Bachelor's programmes. Students will be introduced to history, art history, literature and the art of academic discourse, providing them with a solid grounding.

They will also receive discipline-specific courses from the first term of Year 1. These will become their core courses in the second term of Year 1.

From Year 2, students continue their studies in their major subject and are also invited to choose a 30-credit minor with a view to broadening their intellectual and professional horizons. This minor can be selected from another faculty discipline or from another UCL faculty, subject to certain prerequisites set by the programme managers.

Course prerequisites

A document entitled [en-prerequis-2015-arke1ba.pdf](#) specifies the activities (course units - CU) with one or more pre-requisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult [regulation of studies and exams](#).

The programme's courses and learning outcomes

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with UCL account.

ARKE1BA - Information

Admission

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.
The admission requirements must be met prior to enrolment in the University.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

- [> General requirements](#)
- [> Specific requirements](#)
- [> Knowledge of the French language exam](#)
- [> Special requirements](#)

General requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;
5. A pass certificate for one of the [entrance examinations](#) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium (this qualification does not grant exemption from the [French language proficiency examination](#)), the German Community of Belgium or the Royal Military Academy;
7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

Note:

Requests for equivalence must be submitted no later than 14 July 2015 to the Equivalence department ([Service des équivalences](#)) of the Ministry of Higher Education and Scientific Research of the French Community of Belgium.

The following two qualifications are automatically deemed equivalent to the Certificate of Upper Secondary Education (Certificat d'enseignement secondaire supérieur – CESS):

- European Baccalaureate issued by the Board of Governors of a European School,
- International Baccalaureate issued by the International Baccalaureate Office in Geneva.

These two qualifications do not, however, provide automatic exemption from the [French language proficiency examination](#).

8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

Specific requirements

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Exam of knowledge of the French language

Anyone not demonstrating sufficient [French language proficiency](#) will not be admitted to the first-year undergraduate examinations.

Special requirements

Teaching method

The bachelors programme in Bachelor in History of Art and Archaeology : General begins with a common semester made up of general courses given within the faculty. These general courses are taught by a team of teachers who emphasize an active exchange involving practical work and student participation.

From the second semester of the first year on, the courses specific to the students' bachelors programme use a variety of pedagogical methods (active learning, a balanced combination of individual and group work) with the aim of acquiring knowledge and the ability to analyse.

Throughout the student's bachelor programme in Bachelor in History of Art and Archaeology : General, students experience a variety of teaching methods : lectures, group work, individual work, seminars. Some courses also use e-learning (exercises and resources are made available to students, pedagogical management, sharing and evaluation by the class of work).

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Depending on the nature of the course and the teaching methods, the evaluation will take different forms. Some courses will involve oral and/or written evaluations (held during one of the three exam sessions: January – June – August/September), whilst the evaluation of seminars will involve more substantial student participation as well as assessment of individual course work. Evaluation methods will be explained at the beginning of each course.

Those exams relating to courses on communication skills will evaluate the student's level, i.e. the practical use of the language in relevant situations.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits
