CHIM1BA - Introduction

Introduction

CHIM1BA - Teaching profile

Learning outcomes

The programme aims at : the acquisition of general knowledge and skills in the principal subjects of the Exact Sciences (Biology, Chemistry, Mathematics and Physics) and a deepening of the basic knowledge and skills in the various domains of Chemistry the acquisition of rigour in reasoning and in written and oral expression, a critical spirit and the capacity to solve scientific problems, particularly those relevant to the disciplines of Chemistry the acquisition of transversal skills (Human Sciences, computing, management, English, written and oral communication), with a view to enhancing the generalist character of the training programme as well as the chances of getting a foot-hold on the job market upon successful completion of the studies.

On successful completion of this programme, each student is able to :

1. Maîtriser un ensemble de « savoirs scientifiques » permettant de résoudre des problématiques de chimie

1.1 Identifier et utiliser de manière critique les connaissances « essentielles » des sciences fondamentales : biologie, chimie, mathématique, physique pour résoudre une problématique donnée

1.2 Identifier et utiliser de manière critique les savoirs « spécialisés » de la chimie : organique, inorganique, analytique, physique pour résoudre un problème complexe de chimie.

2. Réaliser une démarche scientifique, théorique ou expérimentale, complète appliquée à l'appréhension, à l'analyse ou au développement d'une réaction chimique

2.1 Définir une problématique en des termes scientifiques rigoureux

2.2 Intégrer les connaissances acquises pour la formulation du problème en termes d'hypothèses permettant de proposer une solution pertinente au problème de chimie posé

2.3 Etablir les relations structures-propriétés pour une molécule donnée

2.4 Maîtriser les techniques expérimentales fondamentales de la chimie

2.5 Synthétiser, isoler et purifier au laboratoire une molécule donnée et quantifier sa concentration en répétant des modes opératoires décrits précédemment

2.6 Evaluer le risque lié à la réalisation au laboratoire d'une réaction chimique et veiller à la sécurité de l'environnement et des personnes dans le respect des règles de l'art de la chimie.

3. Communiquer oralement et par écrit en français et en anglais en vue de mener à son terme un projet scientifique en chimie

3.1 Formuler des conclusions pour la rédaction rigoureuse d'un rapport dans un esprit de synthèse (en français).

3.2 Rédiger des documents techniques en chimie (en français et en anglais)

3.3 Communiquer à ses pairs sous forme synthétique, graphique et schématique les résultats d'un projet scientifique (en français).

4. Apprendre et agir de manière autonome

4.1 Intégrer de manière autonome de nouvelles connaissances et compétences

4.2 Gérer de façon autonome sa formation et l'organisation de son travail

4.3 S'auto-évaluer en connaissant ses compétences et les limites de sa propre expertise

5. Faire preuve d'analyse critique et de rigueur scientifique

5.1 Analyser et exploiter des documents scientifiques et techniques en vue de résoudre une problématique de chimie.

5.2 Témoigner d'une ouverture d'esprit, accepter des approches innovantes pour résoudre des problèmes de chimie

5.3 Critiquer une démarche expérimentale et proposer des améliorations

5.4 Rassembler et traiter des données scientifiques pertinentes (en français et anglais) et en faire l'analyse critique

5.5 Citer et référencer son travail conformément aux standards du monde scientifique, sans plagiat

CHIM1BA Detailed programme

Programme by subject

Year

1 2 3

o Majeure (150 credits)

o biochimie (9 credits)

o LCHM1271	Elements of biochemistry	Patrice Soumillon	30h+24h	4 Credits	1q	x		
o LCHM1371	Metabolic Biochemistry	Yves-Jacques Schneider	30h+30h	5 Credits	2q			x

o Chimie générale (19 credits)

o LCHM1111	General chemistry 1	Michel Devillers (coord.)	60h+60h	10 Credits	1q	x		
o LCHM1211	General Chemistry 2	Michel Devillers (coord.), Geoffroy Hautier	30h+54h	6 Credits	2q		x	
o LCHM1311	Environmental chemistry	Alexandru Vlad	30h	3 Credits	2q			x

o Chimie inorganique et analytique (17 credits)

o LCHM1231	Elements of inorganic and analytical chemistry	Michel Devillers	30h+50h	6 Credits	2q		x	
o LCHM1331	Inorganic chemistry I	Michel Devillers, Sophie Hermans (compensates Michel Devillers)	37.5h +7.5h	4 Credits	1q			x
o LCHM1321	Chimie analytique 1	Christine Dupont (coord.), Yann Garcia	40h	4 Credits	1q			x
o LCHM1322	Exercices in analytical chemistry	Christine Dupont, Yann Garcia (coord.)	0h+66h	3 Credits	1q			x

o Chimie organique (22 credits)

o LCHM1141	Organic chemistry 1	Istvan Marko	30h+30h	5 Credits	2q	x		
o LCHM1241	Organic chemistry 2	Istvan Marko, Olivier Riant	60h+70h	10 Credits	1q		x	
o LCHM1341	Organic chemistry III	Istvan Marko, Olivier Riant	30h+15h	4 Credits	2q			x
o LCHM1342	Exercices in organic chemistry I	Raphaël Robiette, Michael Singleton	0h+65h	3 Credits	2q			x

o Chimie physique (14 credits)

o LCHM1252	Elements of physical molecular chemistry	Geoffroy Hautier	45h +22.5h	6 Credits	2q		x	
o LCHM1351	Physical chemistry and physico-chemical calculations	Tom Leyssens	45h+19h	5 Credits	1q			x
o LCHM1352	Physical methods of chemistry	Tom Leyssens	0h+76h	3 Credits	2q			x

o Chimie des polymères (3 credits)

o LCHM1361	Introduction to polymer chemistry	Jean-François Gohy	22.5h	3 Credits	2q				x
------------	-----------------------------------	--------------------	-------	-----------	----	--	--	--	---

o Cristallographie et spectroscopie moléculaire (8 credits)

o LCHM1251B	Eléments de cristallographie et de spectroscopie moléculaire	Yaroslav Filinchuk	30h+10h	4 Credits	1q			x	
o LCHM1251C	Eléments de cristallographie et spectroscopie moléculaire	Sophie Hermans	30h+20h	4 Credits	2q			x	

o Mathématiques (14 credits)

o LMAT1111F	General Mathematics	Pedro Dos Santos Santana Forte Vaz, Augusto Ponce	45h +37.5h	7 Credits	1q	x			
o LMAT1111G	General Mathematics	Marino Gran, Augusto Ponce	30h +22.5h	4 Credits	2q	x			
o LCHM1381	Quantitative treatment of chemical data	Tom Leyssens	22.5h	3 Credits	1q				x

o Biologie (11 credits)

o LBIO1111	Cell biology and introduction to prokaryotes, protists and fungi	André Lejeune	37.5h +18h	5 Credits	1q	x			
o LBIO1112	Biologie végétale ; Biologie animale	André Lejeune, Jean-François Rees	52.5h +27h	6 Credits	2q	x			

o Physique (12 credits)

o LPHY1121	General physics I - 1st part	Thierry Fichet	30h +41.5h	6 Credits	1q	x			
o LPHY1122	General physics I - 2d part	Clément Lauzin, Jim Plumet (coord.)	45h +33.5h	6 Credits	2q	x			

o Sciences de la terre (6 credits)

o LBIR1130	Introduction to Earth sciences	Pierre Delmelle, Philippe Sonnet (coord.)	45h+30h	6 Credits	2q	x			
------------	--------------------------------	--	---------	-----------	----	---	--	--	--

o Anglais (8 credits)

o LANG1861	English: reading and listening comprehension of scientific texts	Ahmed Adriouche (coord.), Catherine Avery (compensates Fanny Desterbecq), Fanny Desterbecq, Sandrine Meirlaen (compensates Charlotte Peters), Charlotte Peters, Annick Sonck (coord.)	10h	2 Credits	2q	x			
o LANG1862	English: reading and listening comprehension of scientific texts	Ahmed Adriouche (coord.), Isabelle Druant, Sandrine Meirlaen (compensates Isabelle Druant), Annick Sonck, Anne-Julie Toubeau (compensates Isabelle Druant)	30h	3 Credits	1q			x	

							Year		
							1	2	3
○ LANG1863	English for Political Science (Upper-Intermediate level) 	Ahmed Adriouèche (coord.), Julie Crombois (compensates Fanny Desterbecq), Fanny Desterbecq (coord.), Marielle Henriët (coord.), Susan Jackman, Sandrine Jacob (compensates Susan Jackman), Sabrina Knorr (coord.), Nevin Serbest, Colleen Starrs, Françoise Stas (coord.), Shaïma Wasfy (compensates Sabrina Knorr)	30h	3 Credits	1 ou 2q			x	

○ Cours au choix

L'étudiant choisit au moins 3 crédits parmi

⊗ LSC1181	Computer tools and documentation research	André Moens (coord.), Marie-Anne Van Hove	15h+30h	3 Credits	2q	x		
⊗ LGEO1111	General geography	Marie-Laurence De Keersmaecker, Bas van Wesemael	30h+30h	4 Credits	2q	x		

○ Sciences humaines (4 crédits)

○ Philosophie (2 crédits)

Un cours au choix parmi les cours ci-dessous

⊗ LFILO1250	Logic	Peter Verdée	45h+15h	4 Credits	2q			x
⊗ LSC1120	Philosophy	Bernard Feltz	30h	2 Credits	1q			x

○ Sciences religieuses (2 crédits)

L'étudiant choisit 2 crédits parmi les cours suivants

⊗ LTECO2100	Questions of religious sciences: Biblical readings	Hans Ausloos	15h	2 Credits	1q		x	
⊗ LTECO2200	Questions of religious sciences: reflections about Christian faith	Dominique Martens	15h	2 Credits	2q		x	
⊗ LTECO2300	Questions of religious sciences: questions about ethics	Marcela Lobo Bustamante	15h	2 Credits	1q		x	

○ Option (30 crédits)

Tout en veillant au nombre de crédits requis, l'étudiant complète sa formation avec une mineure qu'il choisit dans la liste suivante : - Mineure d'approfondissement en sciences chimiques - Mineure en biologie - Mineure en criminologie - Mineure en économie (ouverture) - Mineure en développement et environnement

⊗ Mineure ou approfondissement au choix (30 crédits)

Students choose courses depending on the restrictions related to the minor and in conjunction with their study adviser.

Course prerequisites

A document entitled [en-prerequis-2015-chim1ba.pdf](#) specifies the activities (course units - CU) with one or more pre-requisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult [regulation of studies and exams](#).

The programme's courses and learning outcomes

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with UCL account.

CHIM1BA - Information

Admission

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.
The admission requirements must be met prior to enrolment in the University.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

- > [General requirements](#)
- > [Specific requirements](#)
- > [Knowledge of the French language exam](#)
- > [Special requirements](#)

General requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;
5. A pass certificate for one of the [entrance examinations](#) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium (this qualification does not grant exemption from the [French language proficiency examination](#)), the German Community of Belgium or the Royal Military Academy;
7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

Note:

Requests for equivalence must be submitted no later than 14 July 2015 to the Equivalence department ([Service des équivalences](#)) of the Ministry of Higher Education and Scientific Research of the French Community of Belgium.

The following two qualifications are automatically deemed equivalent to the Certificate of Upper Secondary Education (Certificat d'enseignement secondaire supérieur – CESS):

- European Baccalaureate issued by the Board of Governors of a European School,
- International Baccalaureate issued by the International Baccalaureate Office in Geneva.

These two qualifications do not, however, provide automatic exemption from the [French language proficiency examination](#).

8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

Specific requirements

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Exam of knowledge of the French language

Anyone not demonstrating sufficient [French language proficiency](#) will not be admitted to the first-year undergraduate examinations.

Special requirements

- Admission to **undergraduate studies in engineering: civil engineering and architect**

Pass certificate for the [special entrance examination for undergraduate studies in engineering: civil engineering and architect](#).

Admission to these courses is always subject to students passing the special entrance examination. Contact the faculty office for the programme content and the examination arrangements.

- Admission to **undergraduate studies in veterinary medicine**

[Admission to undergraduate studies in veterinary medicine is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in physiotherapy and rehabilitation**

[Admission to undergraduate studies in physiotherapy and rehabilitation is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in psychology and education: speech and language therapy**

[Admission to undergraduate studies in psychology and education: speech and language therapy is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in medicine and dental science**

[Admission to undergraduate studies in medicine and dental science is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

Note: students wishing to enrol for a Bachelor's degree in Medicine must first sit an aptitude test.

Teaching method

Des séances sont organisées au cours de la première année autour des questions de méthode de travail, par exemple la gestion du temps ou la manière d'aborder les différentes matières.

Les exercices et laboratoires sont organisés en petits groupes et sont encadrés par des assistants. Les monitorats permettent à ceux qui le souhaitent de faire le point sur les matières vues au cours : les enseignants de chaque discipline répondent aux questions des étudiants et expliquent les points moins bien compris.

La plupart des enseignements disposent également d'un site internet ou est déposée une série d'informations utiles pour l'étude.

Des cours au choix permettent aux étudiants de préparer leur orientation future.

La possibilité de réaliser un travail personnel et d'en rédiger un rapport de synthèse est offerte aux étudiants.

Outre des rapports à remettre ou des contrôles de connaissances au début de certaines séances de laboratoires, des interrogations obligatoires intervenant dans la note finale de chaque matière sont organisées après un mois de cours au premier quadrimestre.

Des évaluations continues sont mises en place avec une attention particulière sur la compréhension interdisciplinaire des matières.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Différentes modalités sont mises en oeuvre pour l'évaluation des connaissances et des compétences acquises au cours de la formation; elles sont adaptées aux types de prestations : évaluation continue notamment pour les exercices pratiques, évaluation des travaux personnels et de groupe, évaluation globale (écrite et/ou orale) durant les sessions d'examens.

Mobility and/or Internationalisation outlook

Sauf cas exceptionnels, la mobilité internationale n'est recommandée que dans le cadre des programmes de master.

Possible trainings at the end of the programme
