COURSE PREREQUISITES

A document entitled [en-prerequis-2015-min-icomu100i.pdf](#) specifies the activities (course units - CU) with one or more pre-requisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult [regulation of studies and exams](#).

THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with UCL account.

Admission

Students who are taking the baccalaureate in human and social sciences have priority access to this course. Students taking the baccalaureate in sociology and anthropology, political science, economics, management, law, the arts of psychology may of course be interested in taking this course alongside their main subject. It should also be noted that the issue of information, the popularization and media coverage of knowledge makes this minor relevant to students taking a baccalaureate in science, agronomy, medicine or exact science.

Admission to the minor course will be based on competitive exams, with students invited to present a training project. A different selection system based on different criteria will make it possible to decide between the students. Criteria will include the candidate's motivation and the coherence of his training project.
