## PSIN2MC - Introduction

### Introduction

---

## PSIN2MC - Teaching profile

### Learning outcomes

---

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of Specialist Doctor in Psychiatry, orientation : Infanto-juvenile (Ministerial Decree of 03.01.2002, published on 21.02.2002).

### Programme structure

---

The training course includes full time apprenticeships in recognised services and teaching centres. It lasts for at least five years, full-time, and alternates theoretical courses with apprenticeships. The apprenticeship project established by the university promoter must be approved by the ministerial validation committee for the speciality. These periods of practical training include being on call.

## PSIN2MC Detailed programme

### Programme by subject

---

Parallel to the practical training, the specialist candidate will follow a university training programme organised as follows :

#### **Foundation studies : General Psychiatry**

The training includes theoretical and clinical studies of the various branches of Psychiatry, i.e.:

- clinical psychology and general psychopathology
- anatomy and pathological anatomy, physiology, biochemistry and endocrinology related to psychiatry
- clinical and biological psychiatry and psychopharmacology
- psychotherapy
- social psychiatry; the organisation psychiatric care in and out of hospital, the legal aspects of psychiatry
- the diagnosing and treatment of psychiatric illnesses in children, adolescents, adults and old people
- technical diagnostic procedures proper to psychiatry and interpretation thereof
- legal psychiatry, or scientific and clinical expertise in psychiatry as applied to civil penal matters

The first two years form part of the specific university training programme (FUS, in French).

#### **Higher studies : Psychiatry in Children and Adolescents**

- Theoretical courses : In-depth questions on infanto-juvenile psychiatry
- Seminars : In-depth seminar on infanto-juvenile psychiatry
- Hospital training : Case studies on infanto-juvenile psychiatry
- Apprenticeships : at least 36 months of infanto-juvenile psychiatry and at least one year to be carried out in a recognised acute psychiatric service treating principally children and adolescents.

In addition, the student will choose optional courses or seminars, subject to the approval of the teaching committee. The student is likewise encouraged to enrol on the specialised diploma course in Psychotherapy (PCLI 3DS).

### The programme's courses and learning outcomes

---

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with UCL account.

## PSIN2MC - Information

### Admission

---

*In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail*

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.

The admission requirements must be met prior to enrolment in the University.

#### General requirements

Subject to the general requirements laid down by the academic authorities, admission to the specialized Master's degree programme will be granted to students who fulfil the entry requirements for studies leading to the award of a Master's (second-cycle) degree and who hold a second-cycle diploma, degree, certificate or other qualification issued within or outside the French Community of Belgium, or whose prior learning or experience has been accredited by the Examination Board as being equivalent to at least 300 credits.

---

### Specific Admission Requirements

#### Admission conditions

- The applicant must hold the degree title of Doctor in Medecine or be a Doctor from a member country of the European Union authorising medical practice in Belgium.
- The applicant must be in possession of a document attesting that, at the end of the selection exams, he was retained as a specialist candidate in Psychiatry, orientation : 5nfanto-juvenile, in a Belgian medical faculty. The juridical context and practical procedures regarding these selection tests can be obtained from the secretary's office. Degree holders from outside the European Union are only allowed to register on the programme in the context of procuring a university certificate for partially specialised training for the duration of two years (if they are in the process of doing a specialisation in their country of origin) or for an in-depth specialised training course for the duration of one year (if they are already recognised as specialists in their own country). The Royal Decree of 30.05.2002, relating to the planning of the medical offer for the public, published on 14.06.2002, applies to those candidates wishing to obtain the title of Specialist Doctor in Psychiatry, orientation : Infanto-juvenile (those candidates are thus counted among the general practitioner candidates or specialists in the context of the numerus clausus).

#### Admission procedures

Applications for admission must be addressed to the academic supervisor. The organisation of the entrance selection tests is arranged in accordance with the calendar and the general examination rules and regulations.

## Evaluation

---

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Regular evaluation of each candidate by means of discussions with his training supervisor. At the end of his 2nd year of training, the candidate will be evaluated in accordance with the quality of his apprenticeship and his evaluation scores for the different modules of his theoretical training. Further to the application of the Royal Decree of 16 March, 1999, at the end of his first two years of training, the candidate will receive an attestation proving that he has successfully accomplished a specific university training course. At the end of his 5th year of training, the candidate will be evaluated on the basis of a thesis or at least an article that he has

had published in an international review and of which he is the principal author. Upon fulfilment of the above-described training requirements, the teaching committee will award the academic title in Psychiatry, orientation : Infanto-juvenile.

This title does not replace official recognition by the ministerial validation committee. It attests the successful completion of an academic and scientific study programme in the context of specialised training leading to this validation.
