HIST9CE - Introduction

Introduction

HIST9CE - Teaching profile

Learning outcomes

Ce programme s'adresse aux détenteurs d'un diplôme universitaire de deuxième cycle qui souhaitent acquérir une formation complémentaire à leur discipline de base dans le domaine de l'histoire.

HIST9CE Detailed programme

Programme by subject

Ce programme d'un an est établi en concertation avec le responsable académique du certificat en tenant compte des études antérieures et de l'orientation choisie par le récipiendaire.

Il est axé sur la critique historique et sur ses applications à une période ou à un domaine de l'histoire. Il comporte des cours de sciences auxiliaires, un séminaire et, éventuellement, un travail de fin d'études permettant de vérifier les aptitudes du candidat en ce qui concerne la recherche et la critique des sources, la définition d'une problématique et la synthèse des matériaux rassemblés.

The programme's courses and learning outcomes

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with UCL account.

HIST9CE - Information

Admission

Ceci est le texte par défaut pour la page admission des certificats

Teaching method

The courses make use of a variety of teaching techniques and strategies (lectures, group work, individual work, seminars, reading etc.) which help students to acquire the necessary skills. Certain courses also use e-learning techniques (provision of resources and exercises, teaching devices, collective sharing and assessment of work).

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

According to the type of course, there are different forms of assessment. Certain courses have traditional oral and/or written assessments (which take place in the examination periods in January, June and August/September), while seminars involve student participation throughout the semester and the assessment of individual work. Further details on the assessment method are given at the beginning of each course.

Course examinations on communication skills are designed to test performance, that is to say practical use of the language in meaningful situations, which demonstrate students' level of ability.

Teaching activities are assessed in accordance with the rules currently in force at the University (see [General Examination Regulations](#)). Students may also find additional information on the particular methods of assessment in the course descriptions.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.
