## THEO2M - Teaching profile

### Learning outcomes

The Master in Theology provides in-depth training in the various fields of theology (exegesis, historical, dogmatic, ethical, pastoral) whilst also offering either research training in a specific field (research focus) or teacher training (teaching focus). In each field, the student is invited to approach a specific subject in an in-depth manner, in connection with significant current issues, in order to learn how to take a rigorous approach to his work and develop a critical mind. A selection of activities help him not just to learn more about the speciality he has chosen but also to consider other issues and training programmes which tie in with his areas of interest (e.g.: Master in Biblical Studies, Master in Sciences of Religions).

**On successful completion of this programme, each student is able to :**

**Maîtriser des connaissances approfondies sur le christianisme et intégrer ces dernières dans l'élaboration de réflexions portant sur des problématiques liées aux religions.**

1. Expliquer et interpréter la Bible à l'aide de différentes méthodes d'exégèse.
2. Comprendre et expliciter différents courants de la tradition théologique chrétienne en les confrontant.

1. Maîtriser les notions propres à la théologie pour fonder sa réflexion.
2. Analyser et critiquer, à l'aide de concepts appropriés et variés, une Œuvre ou un courant théologique.
3. Intégrer dans une analyse théologique les sources et données bibliques.
4. Articuler des résultats de recherche émanant de la théologie positive, la théologie systématique et la théologie pratique.

**Maîtriser les outils nécessaires à une recherche théologique et développer une recherche dans son domaine de spécialisation.**

1. Maîtriser l'usage de différents outils de recherche, d'analyse et d'interprétation pour développer une prise de position théologique sur une question particulière.
2. Lire des ouvrages et articles scientifiques dans au moins deux langues différentes.

7. Faire preuve d'un esprit de synthèse, formuler des conclusions et justifier une prise de position théologique.
8. Rédiger et présenter une recherche systématique et originale sur un sujet théologique particulier.

**Développer et justifier une réflexion théologique personnelle en regard de problématiques et de questions de société importantes.**

2. Adapter le contenu et la forme du message aux différents interlocuteurs (experts, collègues, public large).
3. Dialoguer de façon respectueuse et constructive avec des interlocuteurs variés.

**Exercer un regard réflexif et se projeter dans une logique de développement continu.**

1. Adopter une attitude réflexive vis-à-vis de soi-même et de ses pratiques, des savoirs et des discours théologiques, et de leurs évolutions.
2. Intégrer une logique d'apprentissage et de développement continu indispensable pour évoluer positivement dans son environnement social et professionnel.

## Programme structure

The core courses (90 credits) must include a dissertation, one seminar in heuristics and one in theological integration. The other activities cover the diverse areas of theological studies and are offered in the form of biennial courses. Each student puts together his programme by following the grids below. He also reserves one of the two focuses available (research or teaching) for a total of 30 credits.

Each student's programme will amount to at least 60 credits per year.

It must be approved by the Chair of the Faculty Masters Committee (TEBI).

Any student who so wishes may, with the consent of the aforementioned Chair, replace the activities included in his programme with equivalent activities which feature in the [Masters programme](#) offered by KULeuven (Faculteit Godgeleerdheid). The total number of activities followed at Leuven must not exceed 20 credits. Once he has exceeded 20 credits, the student is invited to enroll in the exchange programme which features in the agreement between the two faculties.

*For a programme-type, and regardless of the focus, options/or elective courses selected, this master will carry a minimum of 120 credits divided over two annual units, corresponding to 60 credits each.*

**TEACHING FOCUS [30.0]**

**IMPORTANT NOTE: In accordance with article 138 para. 4 of the decree of 7 November 2013 concerning higher education and the academic organisation of studies, teaching practice placements will not be assessed in the September session. Students are required to make every effort to successfully complete the teaching practice in the June session, subject to having to retake the year.**

La finalité didactique est centrée sur la préparation à l'enseignement dans les années supérieures de l'enseignement secondaire.

Le programme vise le développement des compétences suivantes :

- la conception, la planification et l'évaluation des pratiques ;
- la réflexion sur les pratiques et leur contexte ;
- la compréhension de l'institution scolaire, de son cadre et de ses acteurs ;

Le dispositif comporte trois types d'activités :

- des stages dans l'enseignement secondaire supérieur (60h)
- des séminaires ;
- des cours magistraux.

Ces activités sont réparties en deux catégories :

- les stages, cours et séminaires transversaux, communs à toutes les disciplines. Ils portent le sigle AGRE (13 crédits) ;
- les stages, cours et séminaires propres à la(aux) discipline(s) (17 crédits).

La finalité didactique des masters 120 intègre la formation diplômante « Agrégation de l'enseignement secondaire supérieur » ou AESS (300h - 30 crédits), en référence aux Décrets du 8 février 2001 et à celui du 17 décembre 2003 (concernant les fondements de la neutralité) relatifs à la formation initiale des enseignants du secondaire supérieur en Communauté française de Belgique.

Ces 30 crédits constituent également le programme de l'AESS en langues et littératures romanes qui peut être suivi après un master 60 ou 120.

Concrètement, la réussite du master à finalité didactique conduit à l'obtention du diplôme de master à finalité didactique ainsi que du titre professionnel d'agrégé de l'enseignement secondaire supérieur. L'évaluation des compétences du programme AESS est répartie sur les 2 années de master.

Dans le cadre du master en théologie, la recherche en didactique de l'enseignement religieux ne fait pas l'objet d'un cours particulier ; elle se développe dans diverses activités d'enseignement (didactique de l'enseignement religieux, cours et séminaires d'enseignement religieux. Les étudiant(e)s ont la possibilité d'effectuer leur mémoire de master en didactique de la religion.

## Course prerequisites

---

A document entitled [en-prerequis-2016-theo2m.pdf](#) specifies the activities (course units - CU) with one or more pre-requisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult [regulation of studies and exams](#).

## The programme's courses and learning outcomes

---

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with UCL account.

### Teaching method

---

The core courses are designed in such a way as to promote an interdisciplinary approach to theology. For these main activities, the syllabi allow for interaction between teaching and research, which should help students, including those on the teaching focus, to acquaint themselves with research in the various fields of theology.

By selecting one of the 5 programmes of study in the research focus, the student will not get lost in a sea of different methodology (Biblical exegesis, history, dogmatic, ethical or pastoral thought), but rather focus his training on one area, so as to reach a high enough level to think about undertaking doctoral research. In this case, teacher support can be more personalised, as learning about the specific methodology of a theological discipline is anchored in research seminars where methodology specific to the discipline gives way to practical exercises which are subject to formative evaluations.

For the teaching focus, the scale of the core courses (which, with the dissertation, amount to 90 credits) means that learning about being a teacher is not to the detriment of solid basic training in the various theological disciplines and their own methods.

The interdisciplinarity between the different domains of theology (as well as with philosophy and human sciences) is furthered specifically in the two general seminars (THEO2110 'De l'heuristique à la communication scientifique en théologie' [1st year] and THEO2000 'Séminaire d'Intégration théologique' [2nd year]). In the various disciplines, interdisciplinarity is of a structural nature: for example, Biblical exegesis links philology, history and literary theory; dogmatic theology and ethics address philosophy, the history of thought and various human sciences;

### Evaluation

---

*The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".*

The modes of evaluation are laid out in the syllabi for each activity. For the seminars, formative evaluation is foreseen.

Evaluation can be carried out in the form of a traditional oral or written exam or written work with formative evaluation.

In the second year of the Master, all research focus activities (including the activity included in the core courses of the specialisation chosen by the student) will be subject to a single evaluation to check, at the end of the second master, the student's skills in research via a "examen de maturité" (literal translation: maturity exam) in the theological discipline concerned. This evaluation will also assess written work drafted at the end of the research seminars in the second year. As with the dissertation, the marks for this evaluation will be weighted to reflect the effective importance as compared to other exams.

### Mobility and/or Internationalisation outlook

---

#### International contacts

For UCL theology students, Erasmus exchanges, authorised at the bachelor stage, are encouraged at Master level. Moreover, exchanges with the faculties of theology at KULeuven, Strasbourg University and the Université catholique de Lyon are particularly promoted.

#### International attraction

In French-speaking Europe, this masters programme is only recognised by public authorities at UCL, the Université Marc Bloch de Strasbourg and the Université de Fribourg (CH). Furthermore, it provides students with the opportunity to obtain a 'licence canonique en théologie' (Sacrae theologiae licentiatus) if they meet the requirements to do so (see [page](#)). This opportunity attracts many ecclesiastical students from developing countries.

As well as a partnership agreement with the theology faculty at KULeuven, the faculty is developing international contacts to promote privileged partnerships at the level of its École doctorale thématique ( [THEODOC](#) ); this partnerships will ultimately have a positive knock-on effect on the way the Master is organised.

### Possible trainings at the end of the programme

---

Accessible advanced masters:

Null. But student can add to his training via the Master in biblical studies, in Sciences of religions, or in ethics.

Accessible doctoral training:

Doctorate in theology, doctorate in biblical studies (with possible prerequisites).

## Certificates

---

Activities chosen in the core courses of the masters programme can constitute a Certificate of university in theology (advanced module). The programme for this type of certificate will be drawn up individually with the person in charge of the programme. It will include at least one activity in each of the theological disciplines (exegesis, history, dogmatics, ethics, pastoral).
