Course prerequisites

A document entitled (nb: <u>not available</u> for this programme reli1ba) specifies the activities (course units - CU) with one or more pre-requisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult regulation of studies and exams.

The programme's courses and learning outcomes

For each UCL training programme, a reference framework of learning outcomes specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

Admission

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.

General requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;

2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;

3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;

5. A pass certificate for one of the entrance examinations (https://uclouvain.be/fr/etudier/inscriptions/examens-admission.html) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;

6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium (this qualification does not grant exemption from the French language proficiency examination (https://uclouvain.be/en/study/inscriptions/language-requirements.html)), the German Community of Belgium or the Royal Military Academy;

7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

The following two qualifications are automatically deemed equivalent to the Certificate of Upper Secondary Education (Certificat d'enseignement secondaire supérieur – CESS):

- European Baccalaureate issued by the Board of Governors of a European School,

These two qualifications do not, however, provide automatic exemption from the French language proficiency examination (https://uclouvain.be/en/study/inscriptions/language-requirements.html).

8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

Specific requirements

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Exam of knowledge of the French language

Anyone not demonstrating sufficient French language proficiency (https://uclouvain.be/en/study/inscriptions/language-requirements.html) will not be admitted to the first-year undergraduate examinations.

Teaching method

The program is thought to support interactive participation of the students in the various theological disciplines. In first year, the seminar â€œMethodology of the theologyâ€# (which includes a mentoring and an obligatory tutoring) aims at an optimal coaching of the group of the students and each one in particular. During the first year, a theoretical and practical initiation with the instruments of basic work and research, for example the sources available at the Library and on the Internet, will be ensured by the professors of all the mains domains of the theology. In second and third years, the activities envisage a volume of consequent work to develop an active pedagogy initiating the student with a participative approach for the various theological disciplines.

Evaluation

The evaluation methods comply with the <u>regulations concerning studies and exams</u> (https://uclouvain.be/fr/decouvrir/ rgee.html). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

The evaluation will be conducted by means of the most appropriate forms of assessment decided on by the lecturers, in coherence with the objectives outlined in the course specifications. Except some activities, the courses are evaluated during the evaluation periods. Most of the exams are oral. Teaching methods are evaluated in accordance with the current University regulations (see <u>General regulations concerning examinations</u> (https://uclouvain.be/fr/decouvrir/rgee.html)). Students may also find additional information regarding the evaluation of courses in the course description.   specifically: In first year of Bachelor program, the seminar "General methodology of theology" aims to collect the complementarity of the positive theology (biblical exegesis and history), systematic theology and practical theology. Tutoring (with a teacher chosen by the student) and coaching (with a faculty assistant) complement the methodological dimension of the formation. This will be evaluated throughout the year.

In the second and third years of the Bachelor program, an overall evaluation takes place at the end in the form of a more developed paper.

Mobility and/or Internationalisation outlook

The Faculty of Theology gives the students the opportunity to complete part of their studies <u>abroad</u> (via the Erasmus or Mercator exchange schemes) from the third year of the bachelor in Religious Studies.

The bachelor's programme of Theology entitles direct access to the master's of Theology.
