Introduction
Learning outcomes

Programme structure

For a programme-type, and regardless of the focus, options/or elective courses selected, this master will carry a minimum of 120 credits divided over two annual units, corresponding to 60 credits each.

Focuses

> Professional Focus  [ en-prog-2019-cyse2m-lyse201s ]
> Professional Focus  [ en-prog-2019-cyse2m-lyse202s ]
Programme by subject

LIST OF FOCUSES

  > Professional Focus

PROFESSIONAL FOCUS

Course prerequisites

A document entitled (nb: not available for this programme cyse2m) specifies the activities (course units - CU) with one or more prerequisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student’s individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult regulation of studies and exams (https://uclouvain.be/fr/decouvrir/rgee.html).

The programme's courses and learning outcomes

For each UCLouvain training programme, a reference framework of learning outcomes specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme’s reference framework developed and mastered by the student?"
Admission

General admission requirements for the Master in Cybersecurity program must be satisfied at the time of enrolling at the university. In the event of divergence between the different linguistic versions of the present conditions, the French version shall prevail.

SUMMARY

- University Bachelors
- Non university Bachelors
- Holders of a 2nd cycle University degree
- Holders of a non-University 2nd cycle degree
- Adults taking up their university training
- Access on the file
- Admission and Enrolment Procedures for general registration

**Masters**

**Holders of a non-University 2nd cycle degree**

**Adults taking up their university training**

> See the website [Valorisation des acquis de l'expérience](https://uclouvain.be/fr/etudier/vae)

It is possible to gain admission to all masters courses via the validation of professional experience procedure.

**Access on the file**

Reminder: all Masters (apart from Advanced Masters) are also accessible on file.

**Admission and Enrolment Procedures for general registration**
The evaluation methods comply with the regulations concerning studies and exams (https://uclouvain.be/fr/decouvrir/rgee.html). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading “Learning outcomes evaluation method”.
