ELAT9CE - Introduction

Introduction

ELAT9CE - Teaching profile

Learning outcomes

This programme is designed to provide advanced training in the field of Latin studies to holders of a 2nd cycle university degree who are interested in Latin culture or who, in their research or professional activity, need to deal with and exploit Latin sources, from Antiquity to the modern period.

In particular, this programme is aimed at people who may be required to teach Latin in secondary education without having had special training; this programme will enable them to develop their linguistic, literary and methodological skills.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document *"In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"*

ELAT9CE - Information

Admission

Specific Admission Requirements

if necessary, students' knowledge will be assessed by means of a test held at the beginning of the year

This training is accessible to students who have a 2nd cycle university degree and who have an adequate knowledge of Latin, equivalent to at least the level of LFLTR1760 Introduction to Latin.

Teaching method

The courses make use of a variety of teaching techniques and strategies (lectures, group work, individual work, seminars, reading etc.) which help students to acquire the necessary skills. Certain courses also use e-learning techniques (provision of resources and exercises, teaching devices, collective sharing and assessment of work).

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

According to the type of course, there are different forms of assessment. Certain courses have traditional oral and/or written assessments (which take place in the examination periods in January, June and August/September), while seminars involve student participation throughout the semester and the assessment of individual work. Further details on the assessment method are given at the beginning of each course.

Teaching activities are assessed in accordance with the rules currently in force at the University (see General Examination Regulations). Students may also find additional information on the particular methods of assessment in the course descriptions.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits
