The minor in economics gives students an introduction to the basic disciplines of economic science (knowledge) and the way we apply the tools of economic analysis to concrete problems (know-how).

Under certain conditions, the minor gives students access to the Master's in economics.

On successful completion of this programme, each student is able to :

1. Maîtriser, avec la rigueur exigée par les sciences économiques, les fondements théoriques (connaissances, concepts, outils, ...) qui constituent les prérequis indispensables dans une perspective de (ré)orientation vers le master en sciences économiques.
2. S'approprier et maîtriser les fondements de la démarche scientifique (méthodologie de recherche et outils méthodologiques spécifiques aux sciences économiques), prérequis indispensables dans une perspective de (ré)orientation vers le master en sciences économiques.
3. Faire preuve d'une bonne capacité d'analyse et de raisonnement spécifiques aux sciences économiques, avec la rigueur requise.
4. Appréhender, questionner, analyser, discuter et résoudre une problématique spécifique en économie, en mobilisant les fondements disciplinaires et méthodologiques pertinents.
5. Développer un angle de lecture et une analyse critique et réflexive spécifiques aux sciences économiques.

## COURSE PREREQUISITES

---

A document entitled (nb: not available for this programme lecon100i) specifies the activities (course units - CU) with one or more prerequisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult regulation of studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>).

## THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

---

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document *"In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"*

## Admission

### Specific Admission Requirements

The minor in economics is accessible to all baccalaureate students.

Students taking the minor are required to learn about statistics and mathematics applied to economics.

## Evaluation

**The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".**

## Possible trainings at the end of the programme

Master's in economics :

- Direct access for students who hold a baccalaureate other than economics or management, if the student has taken the following course during his/her program:

- in economics :

ECGE1222 Micro-économie [45h+15h] (5 credits)    ECGE1212 Macro-économie [45h+15h] (5 credits)

)

- in quantitative methods

ECGE1214 Mathématiques 2[45h+30h](6) (ou cours équivalent)    ECGE1224 Statistiques 2 [30h+15h] (5) (ou cours équivalent)    ECGE1316 Econométrie [30h+15h] (5)

- a choice of 5 credits from amongst :

ECGE1312 Economie publique [30h+15h](5 credits)    ECGE1311 Economie industrielle [30h+15h] (5 credits)    ECGE1313 Economie européenne [30h+15h] (5 credits)    ECGE1225 Théorie des jeux et économie de l'information [30h+10h](5 credits)

- Access to other bachelors under certain conditions (with the agreement of the person in charge of the program) : consideration will be given to the whole of the student's baccalaureate course and, where the student has not taken the required courses, these can be added to the Master's in economics program (maximum 15 credits)
