Teaching profile

Learning outcomes

Broaden and/or deepen knowledge and skills in literature and put them to use, in connection with the learning outcomes from your major, in a relevant way in order to study a problem or complex system in literature.

On successful completion of this programme, each student is able to :

Compl-discipl.1. Master in-depth knowledge and skills in particular fields in the subject of their major (in order possibly to facilitate the focus and/or options in their master).

Compl-discipl.2. Develop an in-depth understanding of the complex literary phenomena relating to studies that complement those studied in the major.

Compl-discipl.3. Demonstrate in-depth understanding of a large range of critical analysis tools from within the field of literary studies, and the ability to use them where appropriate.

Compl-discipl.4. Comprehend and integrate an interdisciplinary approach into your studies: develop criticism using the course input (theories, concepts, approaches...) in the different fields related to the major in order to rigorously question, analyse and discuss a complex problem related to the subject of the student's major and/or that falls under one of the related subjects.

Compl-discipl.5. period in another institution overseas. Carry out part of his or her education in an institution overseas: Develop in an international and multicultural environment, ordinarily in a language other than French, and be exposed to other educational experiences.

COURSE PREREQUISITES

A document entitled (nb: not available for this programme llitt100i) specifies the activities (course units - CU) with one or more pre-requisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult [regulation of studies and exams](https://uclouvain.be/fr/decouvrrir/rgee.html) (<https://uclouvain.be/fr/decouvrrir/rgee.html>).

THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "*In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?*"

Admission

Specific Admission Requirements

The programme is open to all Bachelors, irrespective of their main programme. There are no admission prerequisites or requirements. We should, however, point out that one module of this programme is taught in the language of the literature studied.

For further information, see the [summary table](#) showing the different minors open to students on each Bachelor's programme.

Teaching method

The courses make use of a variety of teaching techniques and strategies (lectures, group work, individual work, seminars, reading etc.) which help students to acquire the necessary skills. Certain courses also use e-learning techniques (provision of resources and exercises, teaching devices, collective sharing and assessment of work).

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

According to the type of course, there are different forms of assessment. Certain courses have traditional oral and/or written assessments (which take place in the examination periods in January, June and August/September), while seminars involve student participation throughout the semester and the assessment of individual work. Further details on the assessment method are given at the beginning of each course.

Course examinations on communication skills are designed to test performance, that is to say practical use of the language in meaningful situations, which demonstrate students' level of ability.

Teaching activities are assessed in accordance with the rules currently in force at the University (see [General Examination Regulations](https://uclouvain.be/en-enseignement-reglements.html) (<https://uclouvain.be/en-enseignement-reglements.html>)). Students may also find additional information on the particular methods of assessment in the course descriptions.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.

Possible trainings at the end of the programme

This minor doesn't give direct access to a particular master.

Enrolling on the minor

1. Organization

Students are free to choose their second and third year courses but must divide the number of credits equally between the two years.

To take full advantage of the training on offer, students are advised to attend the communicative skills courses and the accompanying exercise sessions. Different exercise sessions will be held at different times.

2. Admission to the minor

The programme is open to all Bachelors, irrespective of their main programme. There are no admission prerequisites or requirements. We should, however, point out that one module of this programme is taught in the language of the literature studied.

For further information, see the [summary table](#) showing the different minors open to students on each Bachelor's programme.

3. Enrolling on the minor and checking enrolment

Second year of Bachelor's degree

Once students have enrolled for their year of study, they can enrol on their minor online. Students repeating Year 2 are automatically enrolled on the same minor.

Third year of Bachelor's degree

When enrolling for the third year, students are automatically enrolled on the second part of their minor. The same applies to students who are repeating their third year.

Requests for exemption to this rule should be submitted to the study adviser for the relevant faculty.

4. Changes to the minor enrolment

Students who wish to make any changes to their enrolment choices must submit a request to their own faculty's study adviser, stating their reasons, before 10 October.
