## ROM1BA - Introduction

### Introduction

---

#### Introduction

Studying Philosophy, Arts and Letters broadens horizons on the world. It is designed to provide a rigorous general training course related to a linguistic and literary specialisation.

By the end of the first cycle, you will have

- gained solid general, literary and historical knowledge ;
- developed your skills in argumentation and writing ;
- developed your literary sensitivity and be capable of commenting on and interpreting a poetic, narrative or dramatic text ;
- powerful tools at your disposal for analysing language ;
- reached a good level in both speaking and writing in Spanish and Italian.

#### Your profil

To start studying French and Romance languages and letters, it is not always necessary to have already made a clear choice of career or to only go into teaching. A marked interest in literature and curiosity about the French language (and also for Spanish and Italian) are also excellent reasons to embark on this venture!

#### Your futur job

Our students become teachers, booksellers, journalists, researchers, but also, for example, commercial representatives, writers and theatre directors. They can also be found working as advisers in multimedia and communication, editorial and production assistants in publishing or as HR managers in business etc.

#### Your programme

The Bachelor's degree offers you

- general training in philosophy, arts and letters to introduce you to university level work : history, art and civilisations, European literatures, methodology and practice of academic discourse, ancient and modern languages ;
- solid training in humanities : historical criticism, language studies, philosophy, etc. ;
- study of literary theories used in the analysis of works and a wide-ranging knowledge of the texts which form our literary heritage ;
- a significant practical element (learning the process of writing a document) ;
- a choice between studying Spanish or Italian language and literature.

Having completed the Bachelor's degree, you can continue by taking the Master's degree in French and Romance Languages and Letters.

## ROM1BA - Teaching profile

## Course prerequisites

A document entitled (nb: [not available](#) for this programme rom1ba) specifies the activities (course units - CU) with one or more pre-requisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult [regulation of studies and exams](https://uclouvain.be/fr/decouvrir/rgee.html) (https://uclouvain.be/fr/decouvrir/rgee.html).

## The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "*In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?*"

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;

A pass certificate for one of the [entrance examinations](https://uclouvain.be/fr/etudier/inscriptions/examens-admission.html) (https://uclouvain.be/fr/etudier/inscriptions/examens-admission.html) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. 8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

### Specific requirements

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

## Teaching method

---

The bachelors programme in Bachelor in French and Romance Languages and Letters : General begins with a common semester made up of general courses given within the faculty. These general courses are taught by a team of teachers who emphasize an active exchange involving practical work and student participation. This common semester provides students with the opportunity to change to another bachelors programme at the end of the January exam session if the student's advisory office agrees.

From the second semester of the first year on, the courses specific to the students' bachelors programme use a variety of pedagogical methods (active learning, a balanced combination of individual and group work) with the aim of acquiring knowledge and the ability to analyse.

Throughout the student's bachelor programme in Bachelor in French and Romance Languages and Letters : General, students experience a variety of teaching methods : lectures, group work, individual work, seminars. Some courses also use e-learning (exercises and resources are made available to students, pedagogical management, sharing and evaluation by the class of work).

## Evaluation

---

**The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".**

Depending on the nature of the course and the teaching methods, the evaluation will take different forms. Some courses will involve oral and/or written evaluations (held during one of the three exam sessions: January – June – August/September), whilst the evaluation of seminars will involve more substantial student participation as well as assessment of individual course work. Evaluation methods will be explained at the beginning of each course.

Those exams relating to courses on communication skills will evaluate the student's level, i.e. the practical use of the language in relevant situations.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.

## Mobility and/or Internationalisation outlook
