Introduction

DRHD2M - Teaching profile

Learning outcomes

The programme of the Master en droit à horaire décalé aims to help people already working to acquire the precise legal knowledge attested to by the award of a university degree leading to the same legal professions as the Master en droit (day classes).

This master is professional training par excellence.

As such, it is unique in the Belgian French community and allows students who have taken the Baccalauréat en droit à horaire décalé at the FUSL to perfect their training..

After three years' baccalauréat, the Master en droit programme has the dual objective of adding to the student's general training with training in key subjects (core courses) and helping him to specialise in subjects more specifically related to his future professional practice (focus and optional courses). The specialisation arises from the student choosing freely between the coherent sets of subjects.

The balance between general and specialised training should help the student acquire legal skills of a highly technical nature backed up by critical and analytical skills.

On successful completion of this programme, each student is able to :

1. APPROFONDIR

1.1. Mobiliser et enrichir avec esprit critique les savoirs et compétences acquis au terme du programme de bachelier en droit, dans une perspective à la fois interdisciplinaire, comparative et professionnelle.

2. MAÎTRISER ET APPLIQUER

2.1. Avoir une connaissance actuelle et une maîtrise générale des principes, règles, théories, doctrines et jurisprudences donnant corps aux différentes branches du droit, en particulier le droit fiscal, le droit des sociétés (droit commercial approfondi) et comptable, le droit international privé, le droit international public, le droit des sociétés, le droit patrimonial de la famille, le droit de la sécurité sociale et le droit des sûretés.

2.2. Connaître et comprendre l'influence qu'ont certaines normes et institutions européennes et internationales sur ces différentes branches du droit.

2.3. Connaître quelques traits essentiels de ces mêmes branches du droit à l'aune de quelques systèmes étrangers et maîtriser les techniques et les réflexes de recherche en droit comparé aux fins d'approfondir ces connaissances.

2.4. Rechercher, lire et comprendre des documents juridiques écrits et en néerlandais et en anglais ou en allemand.

Être capable de suivre un cours universitaire dans une de ces langues.

2.5. Dans l'une ou l'autre branche du droit, pouvoir, de manière autonome et créative, diagnostiquer un problème juridique complexe, en discerner, dans les moindres détails, les difficultés, en élaguer les éléments périphériques, y apporter des solutions argumentées, fondées sur des recherches approfondies, livrées dans une synthèse claire sous-tendue par un raisonnement juridique poussé, cohérent et crédible.

2.6. Être capable de passer de l'abstraction de la règle de droit aux faits concrets, et inversement.

3. EXPLIQUER ET CONVAINCRE

3.1. Lors d'une discussion (colloque singulier, conversation collective, discours argumentatif, consultation écrite ou orale, etc.), être capable de passer de l'abstraction de la règle de droit aux faits concrets, et inversement.

3.2. Exprimer à haute voix, de manière vivante et structurée le contenu d'un savoir, le fruit d'une recherche ou le résultat d'une analyse juridique dans un français clair et précis dont le registre est adapté au contexte et aux qualités des interlocuteurs [exposé, entretien, conversation, plaidoyer, etc.] et être capable d'en faire de même, par écrit, dans le respect de l'échéance assignée.

3.3. Pouvoir, oralement et par écrit, produire une étude juridique étayée d'illustrations pertinentes.

3.4. Participer à une conversation courante sur une question juridique de difficulté moyenne dans une autre langue que le français (en particulier en néerlandais ou en anglais).

3.5. Subordonner toute forme de communication personnelle au respect le plus absolu des règles gouvernant la production scientifique (citations littérales, références, bibliographie, etc.).

4. RÉFLÉCHIR ET PARTICIPER

4.1. Être capable d'actualiser et de parfaire ses connaissances dans les différentes branches du droit de manière autonome, et d'ainsi se forger une solide culture juridique générale.

4.2. Apercevoir, mobiliser et exprimer les liens, passerelles et prolongements unissant entre elles les différentes branches du droit afin d'analyser une situation factuelle.

4.3. Dans une perspective interdisciplinaire, connaître, comprendre et mobiliser les concepts et théories issus d'autres sciences humaines (notamment l'économie politique, la philosophie, la psychologie, la sociologie, l'histoire et l'éthique) afin d'appréhender le rôle, la portée et les limites du droit et de la justice.

4.4. Faire fructifier l'ouverture résultant :

- soit d'un stage de pratique juridique et approfondir à cette occasion la capacité de contextualiser les normes, les institutions et les personnes appelées à les appliquer ;
- soit du programme interdisciplinaire en création d'entreprise ;
- soit d'un séjour d'échange ;
- soit de cours dispensés en faculté par des professeurs étrangers ;
- soit d'une activité professionnelle préexistante.

4.5. Pouvoir, à propos d'une controverse juridique ou d'une problématique qu'il aurait identifiée, se forger et exprimer une opinion personnelle.

4.6. A raison d'une analyse des situations et mécanismes humains, familiaux, économiques ou sociaux appréhendés par le droit, réfléchir à la justesse des solutions juridiques, aux moyens de les améliorer et agir en ce sens.

5. S'INTERROGER, S'IMPLIQUER ET S'ORGANISER

5.1. Comprendre le caractère relatif, dans le temps et dans l'espace, d'une solution juridique, et ainsi s'interroger sur la pertinence des choix qu'elle véhicule.

5.2. Identifier et promouvoir les valeurs éthiques et sociales fondatrices du droit et de la justice, ainsi que se garder de toute forme d'instrumentalisation.

5.3. S'organiser, planifier son travail et respecter les délais.

6. S'ORGANISER ET S'ADAPTER

S'organiser dans son travail, pouvoir s'adapter à de nouveaux contextes et y évoluer positivement, en ayant intégré une logique de développement continu.

6.1. S'organiser, planifier son travail et respecter les délais.

6.2. Identifier et intégrer, de manière autonome, les nouvelles connaissances et compétences indispensables pour pouvoir appréhender rapidement de nouveaux contextes et/ou situations, identifier ses limites et faire appel, si nécessaire, à des ressources externes adéquates.

6.3. Intégrer une logique d'auto-évaluation, d'apprentissage et développement continu indispensable pour évoluer positivement dans son futur environnement professionnel.

Programme structure

In line with the decree, the Master en droit à horaire décalé amounts to a minimum of 120 credits, spread out over two years of study, each corresponding to 60 credits.

For the student, the programme is made up of four broad, coherent sections: core courses (53 credits), a dissertation (and accompanying seminar : 17 credits), a focus (30 credits) and optional courses (20 credits).

Due to the cost of the programme and the availability of the teachers, the Master en droit à horaire décalé is divided into biennial teaching modules (module A and module B). Students in Master 1 and Master 2 take the organised module during the academic year in which they are enrolled.

The first module consists of four core courses and three focus courses.

The second module consists of the three other core courses and the three other focus courses. Added to this is an optional course.

In addition to the module (A or B, depending on the academic year in which he is enrolled), the Master 1 student undertakes practical work, an option totalling 15 credits (or three optional courses) and a seminar accompanying the dissertation.

In addition to the module (A or B, depending on the academic year in which he is enrolled), the Master 2 student undertakes practical work and writes a dissertation.

Consult the composition of the modules.

For a programme-type, and regardless of the focus, options/or elective courses selected, this master will carry a minimum of 120 credits divided over two annual units, corresponding to 60 credits each.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- transform a prerequisite into a corequisite within the same year (to enable the student to continue his or her studies with a sufficient annual course load)
- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.

For more information, please consult the [Academic Regulations and Procedures](https://uclouvain.be/fr/decouvrir/rgee.html) (<https://uclouvain.be/fr/decouvrir/rgee.html>).

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "*In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?*"
