INGE2M - Introduction

Introduction

Introduction

The Business Engineering master is a two-year management programme which is intended to strengthen the managerial abilities of students having a background in sciences (physics and chemistry) and technologies (energy, electronics and telecommunications, mechanical engineering and processes) in addition to their training in economics and management and quantitative methods.

The Louvain School of Management was classed 22nd in the world in the 2011 ranking of the Financial Times (and 1st in Belgium) for its master programme in Business Engineering.

Your profile

- You wish to develop your skills in the management of technologies;
- you seek to develop concrete in-company experience and participate in the management of complex and innovative projects;
- you are looking for a high-quality education, based on solid scientific knowledge, in the area of high-tech industry and services;
- you are motivated by entrepreneurial drive and a desire to learn how to work effectively in a team;
- you wish to become a manager.

Your future job

Entrepreneurial ability, the capacity to transform initiatives into economic realities, to organise these activities and ensure their continuity, to find the necessary resources and adequately combine them: these are the skills that one expects from those wishing to assume responsibilities in the management of companies.

Our graduates can be found in the highest corporate management positions, as well as in consultancy, auditing, banking, industry (production and operations management) and environmental management.

Your programme

During the course of this master, you will develop the skills necessary for mastering the complex and varied realities that companies encounter in the knowledge economy.

- You will learn to model and formalise management problems and situations;
- you will integrate the technological processes and master their application in the industrial world;
- you will strengthen your language skills by taking a part of the courses in English;
- you will be able to take a quarter of courses in one of the 130 partner universities;
- you will have the possibility to be selected to complete your programme with the degree of Master's in International Management (CEMS), an exclusive in Belgium;
- you will be able to have the opportunity to take the **Annual Block 2** abroad either within the framework of the IB (International Business) programme which provides for an exchange stay in a university partner and the performance of a 6-month traineeship in a company outside the European Union, or by applying for a double degree organised with our partner universities;
- you will be able to integrate the specialisation in "entrepreneurship" (CPME training);
- you will be able to expand your choice of options thanks to the offer in the areas of expertise on the two sites of the LSM.

INGE2M - Teaching profile

Learning outcomes

1. A profile of the graduate

The Master in Business Engineering prepares the graduate to meet the challenge of **becoming a socially responsible and enterprising expert in management, incorporating technological and industrial aspects and innovation.**

The **Master in Business Engineering** is a programme that develops the skills and expertise necessary for the dialogue between management professions and science- and technology-oriented professions in public or private, commercial or non-commercial organisations. In addition to training in economics and management and quantitative methods, it aims to boost knowledge in science (physics and chemistry) and technologies (energy, electronics and telecommunications, mechanics and procedures).

At the end of this programme (including a required work placement in a company or research centre and an optional foreign exchange), the graduate will have developed the skills and knowhow that will allow him to master the complex and varied issues that businesses and industries encounter in managing knowledge, occupations, skills and processes at a strategic or logistical level. He will also be specialised in one or more areas of management:

- functional: human management, marketing, finance, accounting, operations and logistics, information systems and ICT, strategy and innovation, etc.
- or transversal: operational, tactical or strategic levels.

At the end of this programme, the graduate will be:

Responsible:

He is capable of implementing socially responsible management practices in any type of organisation.

An Expert:

- He will have acquired in-depth quantitative and methodological skills;
- He is capable of modelling and formulating management problems and situations in sectors that are highly technological and centred on innovation, among others, with a view to providing solutions and improvements;
- He is capable of assimilating technological processes and mastering their applications in the industrial and service setting.

Enterprising:

He is capable of grasping and comprehending the complex issues of the innovative sectors and mastering their management.

Aware of the responsibility inherent to his profession, the graduate will have acquired the mindset of a critical participant, capable of making decisions in organisational, technological and innovative environments while putting **ethical and socially responsible management values** at the centre of his concerns. He will have adopted an approach of continuous development that will allow him to be a professional demonstrating expertise, capable of adapting and evolving positively in his environment.

2. The competency framework

At the end of this programme, the graduate is capable of:

Introduction

The exit profile of the Master in Business Engineering graduate is specified by the LSM competency framework (www.lsmcompetencyframework.be) with in particular:

- an academic education centred on training in economics and management, quantitative methods, science (physics and chemistry) and technologies (energy, electronics and telecommunications, mechanics and procedures),
- priority given to the following skills:
 - Acting as a socially responsible participant,
 - Mastering knowledge,
 - Managing a project,
 - Innovating and taking action,
 - Applying a scientific approach.
- possibility of developing some of these skills in greater depth through his choice of options, tracks, thesis, work placement and exchange.

3. Research training

Students wishing to prepare for the completion of a Doctorate in Management or, more broadly, to learn the methods and domains in research, fundamental and applied, in management have the opportunity to follow the Specialized Focus. The Specialized Focus will develop the student's ability to:

- Identify and locate the different epistemological paradigms characterizing the research in management
- Master the specific methodological modelling approaches and/or empirical, qualitative/quantitative, and design a research platform

Programme structure

The 120 Master's degree in Business Engineering includes the following four elements:

1. Core subjects worth 30 credits

It includes the master's thesis (20 credits) as well as an internship (10 credits) which can be linked (or not) to the master's thesis.

2. A professional focus worth 30 credits,

In-depth study of the distinctive disciplines of the engineer: Performance Management, Data Analytics applied in Business, Technological and Quantitative Project,...

The professional focus courses are given during the six first weeks (Part 1) of each term.

3. A major worth 30 credits,

Spread over the two terms, it enables the student to specialise in a domain e.g. Supply Chain Management, Financial Engineering, International Finance, Business Analytics, Decision Marketing...

The student has access to the majors offered on the two sites of the Louvain School of Management : Louvain-la-Neuve and Mons. The courses of the majors are given during the six last weeks (Part 2) of each term.

> [Detailed description \(objectives, career opportunities,...\) of the majors offered in the Master in Business Engineering](#)

4. An exchange of 30 credits or an option and LSM courses (30 credits)

For the Annual Block 2, the student has either the opportunity to follow courses on exchange in one of the 145 partner universities of the Louvain School of Management or to continue its specialisation by taking an option of 3 courses as well as LSM courses.

ANNUAL BLOCK 1				ANNUAL BLOCK 2				Degree 120 credits of Master en Ingénieur de gestion, à finalité spécialisée (Professional Focus)

14 credits	15 credits	13 credits	15 credits	15 credits	15 credits	10 credits			
MASTER'S THESIS (20 credits)									

Four different areas of training which can be accessed after they have been selected:**CEMS Master's in International Management - CEMS MIM (<https://uclouvain.be/en/faculties/lsm/cems.html>)**

The LSM is the **sole partner in Belgium** of this network which brought together the best European management schools and various partners from outside Europe. This elite programme is designed to train future leaders of multinational and global companies.

Interdisciplinary programme in Entrepreneurship - CPME (<https://uclouvain.be/en/etudier/cpme>)

This programme brings together students from different faculties at UCL and provides them with the analytical tools to help them understand business processes, start or take on businesses of different kinds and to develop business projects within existing organisations.

International Business programme - IB

This programme is designed for students who wish to pursue an international career. By combining a dedicated major, courses taken on exchange and a 6-month internship outside Europe in a company (multinational, SME, NGO,...), it promotes an open-minded approach, intercultural awareness, adaptability and pro-activity, all of which are vital for work in an international context. Students selected into the IB Programme spend their entire Annual Block 2 abroad.

Double degree - DD & DDD

By gaining 60 credits courses at LSM, approximately 40 credits from one of the DD partner universities and a master's thesis worth 20 credits common to both institutions, students are awarded two Masters' degrees, one from the LSM and the other from the partner university:

- Universität zu Köln (Cologne, Germany)
- Norwegian School of Economics and Business Administration (Bergen, Norway)
- Universidade NOVA de Lisboa (Lisbon, Portugal)
- University of Economics Prague (Czech Republic)
- Vytautas Magnus University (Kaunas, Lithuania)
- Aix-Marseille Université (Aix-Marseille, France)
- KU Leuven (Leuven, Belgium)
- Instituto Superior Técnico - Technical University of Lisbon (Lisbon, Portugal)

A "Dedicated Double Degree", DDD focus on Environmental issues and Supply Chain Management, exclusively offered by LSM and NHH.

NOTE:

If you hold a second cycle university degree or a Bachelor degree equivalent to the Business Engineering degree (i.e. minimum 240 credits), you can **access directly the second year of the master 120 in Business Engineering**. This programme will include, depending on the credits accorded, a **minimum of 60 and a maximum of 75 credits**. (<https://uclouvain.be/277582>)

For a programme-type, and regardless of the focus, options/or elective courses selected, this master will carry a minimum of 120 credits divided over two annual units, corresponding to 60 credits each.

INGE2M Detailed programme

Programme by subject

CORE COURSES [30.0]

- In addition to the core courses, the Master in Business Engineering includes also :
- . a professional focus worth 30 credits based on advanced study of the various disciplines of business engineering,
 - . a major (30 credits),
 - . an exchange OR an option and courses (30 credits during the 1st term of Annual block 2)

- Mandatory
- △ Courses not taught during 2020-2021
- ⊕ Periodic courses taught during 2020-2021
- ⊗ Optional
- ⊖ Periodic courses not taught during 2020-2021
- Activity with requisites

⊗ LCPME2005	Social and Sustainable Entrepreneurship	Julie Hermans	30h	5 Credits	q2		x

PROFESSIONAL FOCUS [30.0]

The professional focus worth 30 credits is based on advanced study of the various disciplines of business engineering : Performance Management, Data Analytics applied in Business, Technological and Quantitative Project. The professional focus courses are organised during the 6 first weeks of each term during the Annual block 1 (except specific profil).

Please note that in addition to this professional focus, the Master in Business Engineering includes also :

- . a major (30 credits),
- . an exchange OR an option and courses (30 credits during the 1st term of Annual block 2),
- . an internship during the 2nd term of Annual block 2 (except specific profil),
- . a Master's thesis mainly in Annual block 2.

OPTION SOURCING AND PROCUREMENT (LLN) [15.0]

The Kronos Group Chair "Strategic Sourcing and Procurement" is the fruit of a collaboration between Kronos Group and Louvain School of Management.

The objective of the Chair is to promote research and education in the sourcing and procurement domain, contributing to fostering the profession to continue its transformation into a value creating and strategic profession.

The research in the Chair aims at empirical, economic and strategic studies of procurement under transformation, in particular the innovative, ethical and environmental dimensions of the area.

For more information : <https://uclouvain.be/en/research-institutes/lidam/core/kronos-chair-in-sourcing-and-procurement.html> (<https://uclouvain.be/en/research-institutes/lidam/core/kronos-chair-in-sourcing-and-procurement.html>)

Core courses**CEMS Annual Block 1**

All three courses have to be taken. Please do not pay attention to the alphabetical order of some mandatory courses (it does not apply to CEMS students).

● LLSMF2018	Technological and Quantitative Project (incl. Project Management)	Olivier De Broqueville Paul Fisette Tatiana Hendrix Manuel Kolp Benoît Macq Bernard Nysten Bernard Paque Pierre Semal Mathieu Van Vyve	75h	10 Credits	q1	X	
● LLSMS2220	Seminar on Current Managerial Issues	Olivier de Wasseige Pierre Semal Alain Vas	30h	3 Credits	q1+q2	X	

Corporate Social Responsibility (4 credits)

1 course between :

☒ LLSMS2397	Maatschappelijke verantwoordelijkheid van bedrijven	Sabine Denis	30h	4 Credits	q1	X	
☒ LLSMS2098	Corporate Social Responsibility (Names from A to K)	Ina Aust-Gronarz Carlos Desmet	30h	4 Credits	q1	X	

CEMS Option (15 credits)

All three courses have to be taken.

● LLSMS2111	International Business (in English)	Sunita Malhotra Frédéric Pouchain	30h	5 Credits	q1	X	
● LCEMS2108	International Financial Management for CEMS	Denis Knaepen	30h	5 Credits	q1	X	

							Year	
							1	2
○ LLSMS2109	International Marketing Management (in English)	Isabelle Schuiling	30h	5 Credits	q1	x		

○ Seminar (3 credits)

○ LLSMD2090	Seminar on Relational and Managerial Competences	Patrice Gobert Pierre Meurens	45h	3 Credits	q1+q2	x		
-------------	--	----------------------------------	-----	-----------	-------	---	--	--

○ Cems Activities (25 credits)

All 4 courses/activities have to be taken.

○ LLSMF2013	Data Analytics applied in Business (Names from A to K)	Manuel Kolp Marco Saerens	30h	5 Credits	q2	x		
○ LLSMF2026	Performance Management (Names from L to Z)	Raphaël Betti Vincent Vanderborgh	30h	5 Credits	q2	x		
○ LCEMS2114	Business Analytics	Simon Hazée	30h	5 Credits	q2	x		
○ LCEMS2915	Internship for CEMS			10 Credits	q2	x		

○ CEMS Annual Block 2

○ LLSMD2901	Final Master's Thesis			18 Credits	q1+q2	x		
○ LLSMD2094	Master's Thesis Seminar	Chantal De Moerloose	30h	2 Credits	q1+q2	x	x	

○ CEMS LSM Q3 Courses (18 credits)

CEMS Students who will be at LSM during Q3 need to take the CEMS LSM Q3 courses (18 ECTS credits) as well as 1 full option (15 ECTS credits) among those here below.

○ LLSMS2116	Global Strategy	Benoît Gailly	30h	5 Credits	q1	x		
○ LLSMX2001	Regenerative Economy	Yves De Rongé Emmanuel Mossay	30h	5 Credits	q1	x		
○ LCEMS2341	Block Seminar (CEMS) : Supply Chain Management	Pierre Semal	30h	3 Credits	q1	x		
○ LLSMS2112	Supply Chain and sourcing	Per Joakim Agrell Constantin Blome	30h	5 Credits	q1	x		

○ List of electives (15 credits)

1 option among :

⊗ Option International Finance (LLN) (15 credits)

○ LLSMS2054	International Finance	Bertrand Candelon	30h	5 Credits	q1	x		
○ LLSMS2027	Financial Innovation	Jean-Baptiste Hasse (compensates Yue Zhang)	30h	5 Credits	q1	x		
○ LLSMS2223	Principles of banking and finance	Tom Dechaene Leonardo Iania	30h	5 Credits	q1	x		

⊗ Option Financial Engineering (LLN) (15 credits)

○ LLSMS2224	Forecasting	Bertrand Candelon	30h	5 Credits	q1	x		
○ LLSMS2225	Derivatives pricing	Frédéric Vrins	30h	5 Credits	q1	x		
○ LLSMS2013	Investments (in English)	Leonardo Iania	30h	5 Credits	q1	x		

⊗ Option Corporate sustainable Management (LLN) (15 credits)

○ LLSMS2280	Business Ethics and Compliance Management	Carlos Desmet	30h	5 Credits	q1	x		
○ LLSMS2281	Sustainable Management and Value Chains	Carsten Reuter	30h	5 Credits	q1	x		
○ LLSMS2282	Finance and Responsible Investment Practices	Leonardo Iania	30h	5 Credits	q1	x		

⊗ Option Marketing Strategy for Connected Brands (LLN) (15 credits)

○ LLSMS2000	Marketing Research	Gordy Pleyers	30h	5 Credits	q1	x		
○ LLSMS2002	International Marketing	Thierry Jupsin	30h	5 Credits	q1	x		
○ LLSMS2007	New Business Models and E-commerce	Paul Belleflamme	30h	5 Credits	q1	x		

○ CEMS LSM Q4 Courses (27 credits)

CEMS Students who will be at LSM during Q4 have to take CEMS LSM Q4 compulsory courses (22 ECTS credits) + one course from the list of elective courses CEMS LSM Q4 (5 ECTS credits)

							Year	
							1	2
○ LCEMS2343	Global Citizenship	Isabelle Schuiling	30h	2 Credits	q2		x	
○ LLSMS2117	Business Project (CEMS)	Christophe Lejeune	30h	15 Credits	q2		x	
○ LLSMS2066	Global Leadership	Sunita Malhotra	30h	5 Credits	q2		x	

○ List of elective courses CEMS LSM Q4 (5 credits)

One course to select among the list of elective courses CEMS LSM Q4 (5 ECTS credits)

⊗ LLSMS2032	Advanced Operations Management : Models and Applications (in English)	Philippe Chevalier	30h	5 Credits	q2		x
⊗ LLSMS2033	International Supply Chain Management	Per Joakim Agrell Philippe Chevalier	30h	5 Credits	q2		x
⊗ LLSMS2034	Supply Chain Planning (in English)	Marc Foret Mathieu Van Vyve	30h	5 Credits	q2		x
⊗ LLSMF2011	Knowledge Management (in English)	Julie Hermans Manuel Kolp	30h	5 Credits	q2		x
⊗ LLSMS2043	Innovation Policy and Ecosystems	Benoît Gailly	30h	5 Credits	q2		x
⊗ LLSMS2374	Economics of the Internet (in English)	Paul Belleflamme	30h	5 Credits	q2		x
⊗ LLSMS2128	Central banking, financial regulation, supervision	Ruben Olieslagers (compensates Luc Henrard)	30h	5 Credits	q2		x
⊗ LLSMS2140	International corporate finance	Anh Nguyen (compensates Yue Zhang) James Thewissen (compensates Yue Zhang)	30h	5 Credits	q2		x
⊗ LLSMS2012	Macro Finance	Leonardo Iania	30h	5 Credits	q2		x
⊗ LLSMS2226	Credit and interest rate risk	Frédéric Vrins	30h	5 Credits	q2		x
⊗ LLSMS2138	Big data in finance	Nathan Lassance (compensates Eric Ghysels)	30h	5 Credits	q2		x
⊗ LLSMS2003	Brand Management (in English)	Isabelle Schuiling	30h	5 Credits	q2		x
⊗ LLSMS2004	Big Data/Data Mining Applied to Marketing	Ludovic Chevalier	30h	5 Credits	q2		x
⊗ LLSMS2006	On-line and Off-line Communication Strategies	Doriane Magnus (compensates Nicolas Kervyn De Meerendré) Gordy Pleyers Ingrid Poncin (compensates Nicolas Kervyn De Meerendré)	30h	5 Credits	q2		x
⊗ LLSMS2283	Sustainable Human Resource Management and Leadership	Ina Aust-Gronarz	30h	5 Credits	q2		x
⊗ LLSMS2284	Corporate Sustainability Reporting and Marketing Strategy	Yves De Rongé Valérie Swaen	30h	5 Credits	q2		x
⊗ LCPME2005	Social and Sustainable Entrepreneurship	Julie Hermans	30h	5 Credits	q2		x
⊗ LLSMS2114	Entrepreneurship	Frank Janssen	30h	5 Credits	q2		x
⊗ LLSMS2299	New Economic Models	Yves De Rongé	30h	5 Credits	q2		x

○ CEMS Seminars

Cems Students need to attend Soft Skills Seminars during both annual blocks.

○ Exchange

Cems Students who will be on exchange need to register for courses on Mob-i.

⊗ CEMS Language Courses

Cems students can take CEMS language courses at UCL (ILV) to fulfill the CEMS language requirements. List available on uclouvain.be/en/faculties/lsm/cems-curriculum.html

Course prerequisites

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "*In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?*"

INGE2M - Information

Access Requirements

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail
Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.
The admission requirements must be met prior to enrolment in the University.

● Preparatory module (60 credits)

Teaching method

This programme, the quality of which has been recognized by external auditors in the EQUIS international accreditation procedure, has four main strengths:

- **Extremely wide range of specialization options**

With access to over 30 optional courses (e.g. Supply Chain, Finance, Innovation, Sourcing & Procurement, ...), students can specialize in the most advanced areas. They tend to strengthen this specialization by completing their dissertation and internship in the same area. These option courses are available at both LSM campuses: Louvain-la-Neuve and Mons. For the majority of the option courses, classes are held on a single day in the week to aid mobility from one campus to another.

- **Training which links academic knowledge and professional practice**

Balanced training is provided by lecturers who are also active researchers in their fields and professionals specially selected for their experience and widely renowned expertise. All students have the opportunity to complete a 60-day internship in a company and to write their dissertation on an issue or task identified during this internship, in the form of a project dissertation. Links with business are very much a part of the course, both in formal lectures as well as the extra-curricular activities organised by the School's Corporate Unit.

- **Teaching methods based on active learning and development of multidisciplinary skills**

Teaching methods are almost always geared towards problem solving, collaborative learning (case studies, projects, problems, simulations) and independence. This is also reflected in the compulsory reading lists, theoretical work and lectures where there is a balance between continuous assessment and final assessment of a course and between individual and group assessments.

- **Strong international outlook**

The international outlook is mainly due to a particularly wide network of over 130 exchange partners, exclusive access in Belgium to the Master's degree in International Management organised by **CEMS** (<https://uclouvain.be/en-204247.html>) and the possibility of gaining a **double degree** (<https://uclouvain.be/en-iag-international.html>).

Evaluation

*The evaluation methods comply with the **regulations concerning studies and exams** (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".*

Various assessment methods are used on this programme:

- **Continuous assessment** of work/learning of each group of students: public presentations, debates, written reports;
- **The Individual assessment** : oral or written exams (after the six week-courses block or during the exam sessions), mission or internship report,... in which critical review and integration in a work group are assessed.

For additional information on assessment methods, see the course description by clicking on the title.

Mobility and/or Internationalisation outlook

This Master contains some strong international links:

1. The programme offers many courses in English and there is the **possibility** for a non-French speaker, to **follow the entire course in English**.
2. It is **possible to spend a semester abroad** (30 credits) (**exchange programs** (<https://uclouvain.be/en-277597.html>)) at a location from a list of more than 130 universities renowned **throughout the world** (<https://uclouvain.be/en-280124.html>) for their management programmes.
3. **Exclusive access** in Belgium to the Master's degree in International Management organized by the **CEMS Global Alliance in Management Education**, as well as **exclusive access** to the **PIM network** (Partnership in International Management - an international business school network).
4. The opportunity to spend the Annual Block 2 abroad
 1. with the **IB** (<https://uclouvain.be/en-273691.html>) (International Business) programme, an exchange programme in one of the LSM partner universities and a 6-month internship in a company in a non European Country,
 2. the possibility for selected students to gain a **double degree** (<https://uclouvain.be/en-iag-international.html>) by spending the first year of Master Studies at the LSM and another year at one of the LSM's partner Universities.
