Learning outcomes

The approfondissement in economics completes the baccalaureate program in economics and management. It allows the student to gain a deeper understanding of the subject in workshop-seminars (15 credits) as well as taking courses in economics (15 credits) which are not given as part of his/her baccalaureate program.

On successful completion of this programme, each student is able to :

1. Maîtriser des connaissances et compétences approfondies dans certains domaines des sciences économiques afin de faciliter le choix de la finalité et des options de son master.
2. Développer une compréhension approfondie de questions complexes en économie relatives à des thématiques complémentaires à celles étudiées dans le cadre de la majeure.
3. Démontrer une compréhension approfondie et exploiter avec pertinence une palette élargie d'outils d'analyse critique relevant des sciences économiques.
