## DEGE2MC - Introduction

### Introduction

---

## DEGE2MC - Teaching profile

### Learning outcomes

The objective of this Advanced 2nd cycle programme is to prepare dentists to gain professional status as general dentists. (Ministerial Decree of 29 March 2002 published 31 May 2002).

### Programme structure

The training lasts one year on a full-time basis and is made up of a theoretical part (at least 250 hours) and a practical clinical part (at least 1,250 hours). The placements include duty activities. A dissertation of at least 10 pages must be written on a subject approved by the official committee.

## The programme's courses and learning outcomes

---

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

## DEGE2MC - Information

### Access Requirements

*In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.  
Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.  
The admission requirements must be met prior to enrolment in the University.*

***In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.***

#### SUMMARY

- [General access requirements](#)
- [Specific access requirements](#)

### General access requirements

Subject to the general requirements laid down by the academic authorities, admission to the specialized Master's degree programme will be granted to students who fulfil the entry requirements for studies leading to the award of a Master's (second-cycle) degree and who hold a second-cycle diploma, degree, certificate or other qualification issued within or outside the French Community of Belgium, or whose prior learning or experience has been accredited by the Examination Board as being equivalent to at least 300 credits.

### Specific access requirements

#### Specific Admission Requirements

#### Special procedures :

- candidates must have a 'licence' degree or a Master's degree in Dentistry from a Belgian university or a degree recognized as being equivalent by the relevant authorities and be able to practise in Belgium
- candidates must show evidence of having been selected as a generalist at a Belgian faculty of medicine

Further information about the legal requirements and the practical details of the selection examination may be obtained from the office.

The Royal Decree of 30 May 2002 on the availability of dentistry studies, published on 18 June 2002, applies to candidates who wish to gain professional status as general dentists. (These candidates therefore fall into the category of generalists or specialists in the restricted intake.)

Applications should be submitted to the academic in charge of the programme.

## Specific professional rules

---

These studies lead to a professional title subject to specific rules or restrictions on professional accreditation or establishment.

You will find the necessary legal information by [clicking here](#).

## Evaluation

---

***The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".***

Students' practical and theoretical knowledge is assessed. The dissertation is also assessed.

When the above requirements have been fulfilled, the programme committee will award the academic qualification of Advanced Master in General Dentistry. This is not a substitute for recognition by the ministerial committee. It is evidence of academic and scientific training in the context of specialized training leading to the award of professional status.
