GEST2M1 - Introduction

Introduction

Introduction

This Master's degree can be completed in one year and covers most of the basic management programme. It aims to train you in the main management skills to enrich your basic training, previously acquired in another field.

Your profile

You

- have a second cycle university degree in sciences, in applied sciences or in human sciences;
- wish to acquire additional management training;
- wish to give an added value to your degree by developing an understanding of the management problems of the organisations or companies where you will be called upon to practise your profession;
- have a bachelor's degree economics and management from the French Community of Belgium.

You will get

- develop your knowledge and skills in various management positions needed in the private or public organisations;
- an in-depth understanding of the theories and methods used in different managerial domains;
- a strong training in management within an internationally recognised university;
- an opportunity to create your own network;
- a unique international experience in the heart of Europe.

Your future job

The ability to undertake, to transform initiatives into economic realities, to organise and ensure their continuity, to find the necessary resources and to combine them adequately are the skills expected of those who want to assume responsibilities in the direction and management of companies.

Our graduates are present in the highest management positions of companies. They can also be found in consulting, auditing, banking, industry (production and operations management) or environmental management.

Your programme

The master is made up of the following four elements:

- Core subjects, worth 30 credits, composed of 6 courses representing the pillars of management;
- Training in the principles and issues of Corporate Social Responsibility, a core value of the Louvain School of Management;
- In-depth study in an area of management through 2 courses of your choice;
- A final dissertation.

Please note that, depending on your academic background, teaching units (= prerequisite courses) could be added to your master programme.

GEST2M1 - Teaching profile

Learning outcomes

The Master 60 in Management prepares the graduate to meet the challenge of **becoming a socially responsible professional with a global overview of the management professions**.

The **Master 60 in Management** is a programme that develops the basic skills and expertise necessary for management functions in public or private, national or international, commercial or non-commercial organisations.

A student who registers for this programme already has a first university Master's degree in a field other than management, or a university Bachelor's degree in management. This Master's programme allows him to either expand his skills in management functions or refine them by incorporating an academic approach, a reflective view and critical detachment.

At the end of this programme, the graduate will be:

> **Responsible:** capable of implementing socially responsible management practices in private or public organisations.

> **A professional:**

- who has assimilated basic management theories and concepts for efficient, expert use in a future professional environment;
- capable of determining the complex and varied issues that commercial or non-commercial organisations encounter in management fields.
- capable of locating organisations in their socio-economic and institutional context, understanding the interdependences between the organisation and the environment and translating them into management decisions;
- who has developed basic skills in all key management functions.

Aware of the responsibility inherent to his profession, the graduate will have acquired the mindset of a critical participant, capable of making decisions in organisational environments by putting **ethical and socially responsible management values** at the centre of his concerns. He will have adopted an approach of continuous development that will allow him to be a professional demonstrating flexibility, capable of adapting and evolving positively in his environment.

THE COMPETENCY FRAMEWORK

Introduction

The exit profile of the Master 60 in Management Sciences graduate is specified by the **LSM competency framework** (<https://uclouvain.be/en/faculties/lsm/competency-framework.html>), with in particular:

- an academic education centred on management training, with an overall approach to management functions;
- priority given to the following skills:
 - Acting as a socially responsible participant,
 - Mastering knowledge,
 - Acting in an interface role, making use of his professional experience;
- a possibility of developing some of these skills in greater depth through the choice of optional courses and final paper.

On successful completion of this programme, each student is able to :

1. Corporate citizenship: Act consciously, aware of their responsibilities, placing human and ethical considerations at the very heart of their thinking and actions.

1.1. Demonstrate independent reasoning, look critically and consciously at acquired knowledge (both academic and common sense) and managerial practices, in light of emerging circumstances and their outcomes.

1.2. Decide and act by incorporating ethical and humanistic values, integrity, respect for the laws and conventions, solidarity and civic action, and sustainable development.

1.3. Decide and act responsibly, while taking into account the social, economic and environmental, sometimes antinomic, outcomes in the short, medium and long term, for the various stakeholders.

2. Knowledge and Reasoning: Master an active and integrated command of a multidisciplinary body of knowledge (content, methods, models, conceptual frameworks) essential to act expertly in the various areas of management.

2.1. Master the core knowledge of each area of management.

2.2. Master highly specific knowledge in one or two areas of management: advanced and current research-based knowledge and methods.

2.3. Articulate the acquired knowledge from different areas of management.

2.4. Activate and apply the acquired knowledge accordingly to solve a problem.

2.5. Contribute to the development and advancement of the management field.

3. A scientific and systematic approach: Analyze and resolve problems in multidisciplinary and complex management situations using a scientific and systematic approach.

3.1. Conduct a clear, structured, analytical reasoning by applying, and eventually adapting, scientifically based conceptual frameworks and models, to define and analyze a problem.

3.2. Collect, select and analyze relevant information using rigorous, advanced and appropriate methods.

3.3. Consider problems using a systemic and holistic approach: recognize the different aspects of the situation and their interactions in a dynamic process.

3.4. Perceptively synthesize the essential elements of a situation, demonstrating a certain conceptual distance, to diagnose and identify pertinent conclusions.

3.5. Produce, through analysis and diagnosis, implementable solutions in context and identify priorities for action.

4. Innovation and Entrepreneurship: Innovate, initiate and lead change.

- 4.1. Identify new opportunities, propose creative and useful ideas in situations that require new strategic approaches, break with existing models and paradigms, promote progress and change.
- 4.2. Initiate, develop and implement ideas around a new product, service, process or organizational structure, having evaluated the risks and remain pragmatic.
- 4.3. Integrate, collaborate and actively drive forward collective actions for change, and diffuse for social awareness.
- 4.4. Reflect on and improve the content, processes and goals of professional practices.

5. Work effectively in an international and multicultural environment: Work as an interface between stakeholders with different rationales, belief systems, training, nationalities, cultures ...

- 5.1. Understand the inner workings of an organization: develop a global approach and integrate the internal logic used, within the organization.
- 5.2. Position and understand the functioning of an organization, in its local and international socio-economic dimensions and identify the associated strategic issues and operational decisions.
- 5.3. Understand and establish their own role and scope for action, in the overall operation of the organization, while liaising with the various internal and external stakeholders.

6. Teamwork and leadership: Integrate and work in a team, exercise enlightened leadership within the group.

- 6.1. Work in a team: join in and collaborate with team members. Be open and take into consideration the different points of view and ways of thinking, manage differences and conflicts constructively, accept diversity.
- 6.2. Exercise enlightened leadership skills: unite and motivate different team members, identify, draw on and develop their skills and talents, guide them towards achieving a common goal, while adapting to time constraints and the changing environment.

7. Project Management: Define and manage a project to completion, taking into account the objectives, resources and constraints that characterize the project environment.

- 7.1. Analyse a project within its environment and define the expected outcomes: identify what is at stake, the required outcomes and the environmental constraints; clearly define the project objectives and associate the performance indicators.
- 7.2. Organize, manage and control the process: structure and schedule the tasks, identify and allocate human and material resources, coordinate, delegate and supervise the tasks; take into account the anticipated constraints and risks.
- 7.3. Make decisions and take responsibility for them in an uncertain world: take initiatives and act, anticipate and be proactive, show discernment and good judgment and be prepared to make quick decisions, taking into account multiple factors and uncertainties; accept the risks and consequences of decisions.

8. Communication and Interpersonal Skills: Communicate, converse effectively and convincingly with the stakeholders.

- 8.1. Express a clear and structured message, both orally and in writing in their mother tongue, in English and ideally, in a third language, adapted to the audience and using context specific communication standards.
- 8.2. Interact and discuss effectively and respectfully with diverse stakeholders (supervisors, peers, colleagues, clients...) in face-to-face and group contexts, using both verbal and nonverbal communication skills: demonstrate the ability to listen, empathize, be assertive, provide and accept constructive criticism.
- 8.3. Persuade and negotiate: understand the needs and viewpoints of others, put forward their reasoning in an appropriate, relevant and persuasive manner, able to bring out points of agreement, even in antagonistic situations.

9. Personal and professional development: Display self-knowledge and independence, able to adapt quickly to new situations and involve positively.

- 9.1. Independent self-starter: set priorities, anticipate and plan work activities within time constraints, rigorous, structured and thorough, even in changing, uncertain environments or crisis.
- 9.2. Self-awareness and self-control: be aware of and manage their own emotions, able to be objective about their work and behaviour, and recognize their own strengths and weaknesses, accept them and use them in a professional manner.
- 9.3. Self-motivation: be capable of creating a project in line with their own values and aspirations, confident and motivated in managing the implementation of the project, and persevere in difficult situations.
- 9.4. Quick study, lifelong learner: quickly and independently assimilate new information and skills needed to evolve in their professional environment, learn from successes and errors in the spirit of lifelong learning.

Programme structure

The 60 hour Master's degree in Management is made up of the following four elements:

1. **Compulsory core courses**, 6 courses for a total of 30 credits, representing the pillars of management.
2. A 5-credit course on the principles and issues of **Corporate Social Responsibility**, a core value of the Louvain School of Management.
3. An **in-depth study** in an area of management through **2 elective courses** (10 credits).
4. A **final master's thesis** (15 credits).

Please note that, depending on your academic background, teaching units (= prerequisite courses) could be added to your master programme.

GEST2M1 Programme

Detailed programme by subject

CORE COURSES

Les étudiants n'ayant pas les bases requises en sciences économiques devront ajouter le cours de pré-requis LESPO2100 "Economie politique" à leur programme. Ceux qui n'ont pas les bases en mathématiques et statistiques devront ajouter le cours LECGE1112 "Mathématiques en économie et gestion I".

Les étudiants ayant obtenu un bachelier en sciences économiques et de gestion ou ayant suivi les cours du module complémentaire auront un programme de [master 60 adapté](#).

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

GEST2M1 - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

SUMMARY

- > [General access requirements](#)
- > [Specific access requirements](#)
- > [University Bachelors](#)
- > [Non university Bachelors](#)
- > [Holders of a 2nd cycle University degree](#)
- > [Holders of a non-University 2nd cycle degree](#)
- > [Access based on validation of professional experience](#)
- > [Access based on application](#)
- > [Admission and Enrolment Procedures for general registration](#)

Specific access requirements

In addition to fulfilling the specific conditions described here below, candidates must provide proof of sufficient command of the **French language** (level B2 of the Common European Framework of Reference).

Given the organization of courses taught in **English** within the programme, a sufficient command of this language (level B1 of the Common European Framework of Reference) is strongly recommended.

DEADLINE TO SUBMIT A UCLOUVAIN ONLINE REQUEST

- April 30 for applicants of non-European Union nationality who are not resident in Belgium and need a study visa;
- August 31 for all other candidates, resident or not in Belgium

Holders of a non-University 2nd cycle degree

> Find out more about [links](#) to the university

For more information about transition programs to university, please follow the link passerelles.

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

To see what management courses are available in the continuing education programme, please refer to: <https://uclouvain.be/lsm-formation-continue>

Access based on application

Admission on the basis of a submitted dossier may be granted either directly or on the condition of completing additional coursework of a maximum of 60 ECTS credits, or refused.

Access based on application for (future) holders of a Belgian degree: you must of course meet the general and specific access requirements mentioned in the table above according to the degree you have or will obtain and then you must

1. [complete and submit an online application to UCLouvain and follow the procedure](https://uclouvain.be/en/study/inscriptions/futurs-etudiants.html) (https://uclouvain.be/en/study/inscriptions/futurs-etudiants.html)
2. [additionally submit an online application directly to the faculty "Louvain School of Management" and send a dossier](#)

Access based on application for (future) holders of a non-Belgian degree: you must of course meet the general and specific access requirements mentioned in the table above according to the degree you have or will obtain and then you must [complete and submit an online application to UCLouvain and follow the procedure](https://uclouvain.be/en/study/inscriptions/futurs-etudiants.html) (https://uclouvain.be/en/study/inscriptions/futurs-etudiants.html)

Admission and Enrolment Procedures for general registration

Teaching method

This program provides general training and broad exposure relative to various areas of management.

It attempts to achieve an integration of such different areas in order to obtain a global understanding of businesses and to develop decision making and implementation capacity. With this objective, the program offers, on top of lectures which help structure business knowledge, the use of case studies and problem solving exercises. In this order, team work is often relied on.

This program intends to attract a target audience highly varied in its professional background and country of origin. The confrontation of different points of view among students, professors, lecturers and external speakers enriches students' perspectives on management and economics.

For students who face gaps in Economics or Maths / Statistics, courses will be added to their program in order to acquire the necessary prerequisites for a good understanding of management.

The lectures are complemented with individual or teamwork exercises, games, business simulation activities and in general, with tools that facilitate the understanding and assimilation of the concepts presented, even by students whose prior background is rather unrelated to management. This approach to learning is in line with the recent pedagogical reform at LSM-LLN and it has been widely appreciated by students. It has also been recently highlighted by the external auditors via the EQUIS accreditation procedure.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

There are different methods of assessment: individual and/or group work and/or written and oral examinations.

Mobility and/or Internationalisation outlook

This programme has, for many years, attracted a significant proportion of international students (+/-30%) who have already gained a first degree in their home country and who wish to have additional training in management.

Possible trainings at the end of the programme
