TRSF2MC - Introduction

Introduction

TRSF2MC - Teaching profile

Learning outcomes

To enable students to acquire all the concepts in immunohaematology and transfusion practice necessary for the organization of a transfusion centre and a hospital blood bank, to lead the transfusion committee and to improve transfusion safety for patients.

Programme structure

The programme, which comprises a minimum of 300 hours of theoretical courses and practical work, lasts a minimum of one year and a maximum of three years. It is possible to defer, providing the request is made with the initial application.

The teaching, both theoretical courses and supervised work, takes the form of modules. Each module has a special topic and is held over a week for the 30 hour modules or half a week for the 15 hour ones. Each module is supervised by a coordinator and taught in their university.

Students must take the 10 compulsory modules : this represents 225 hours. They must bring this up to 300 hours with optional modules or practical work.

○ Cours obligatoires et mémoire (56 credits)

○ WIHTR3010	Antigènes et anticorps des groupes sanguins. Notions pratiques approfondies	Véronique Deneys	FR [q2] [30h] [4 Credits]
○ WULG3320	Antigènes et anticorps de groupes sanguins: Notions théoriques		FR [q2] [30h] [4 Credits]
○ WIHTR3020	Système HLA		FR [q1] [15h] [2 Credits]
○ WULB7800	Systèmes plaquettaires et granulocytaires		FR [q1] [15h] [2 Credits]
○ WULB7801	Compléments d'immunologie		FR [q1] [15h] [2 Credits]
○ WULB7802	Compléments d'hématologie et hémostase		FR [q1] [15h] [2 Credits]
○ WULG3321	Processus de production des dérivés sanguins		FR [q1] [30h] [4 Credits]
○ WULG3322	Maladies transmissibles par le sang		FR [q1] [30h] [4 Credits]
○ WIHTR3030	Contexte légal éthique et responsabilité médicale	Christine Watremez (coord.)	FR [q1] [15h] [2 Credits]
○ WULB7803	Transfusion clinique		FR [q2] [15h] [2 Credits]
○ WULB7804	Assurance qualité - Hémovigilance		FR [q1] [30h] [4 Credits]
○ WIHTR3040	Organisation transfusionnelle	Véronique Deneys	FR [q2] [30h] [4 Credits]

○ WIHTR3090	Mémoire		FR [] [] [20 Credits]
○ WIHTR2100	Stage spécifique: travaux pratiques antigènes et anticorps des groupes sanguins (1semaines) <i>Ce stage spécifique est obligatoire pour les médecins boursiers</i>		FR [q2] [] [2 Credits]

○ Cours à option et stage (4 crédits)

L'étudiant choisira 4 crédits parmi les activités suivantes. Si l'étudiant opte pour un stage, suivant le nombre de semaines de stage effectuées, le stage vaudra entre 2 et 4 crédits.

⊗ WIHTR3050	Gestion de banque de sang hospitalière	Pascale Saussoy	FR [q2] [15h] [2 Credits]
⊗ WULB7806	Thérapie cellulaire		FR [q2] [15h] [2 Credits]
⊗ WULG3325	Transfusion dans les pays en développement		FR [q1] [15h] [2 Credits]
⊗ WULG3326	Médecine du don et du donneur		FR [q2] [15h] [2 Credits]
⊗ WIHTR2101	Stage: Banque de sang hospitalière (1 semaine)		FR [q1+q2] [] [2 Credits]
⊗ WIHTR2102	Stage: Laboratoire immuno-hématologie (1 semaine)		FR [q1+q2] [] [2 Credits]
⊗ WIHTR2103	Stage: Service du sang, distribution et prélèvement (1 semaine)		FR [q1+q2] [] [2 Credits]
⊗ WIHTR2104	Stage: Laboratoire d'histocompatibilité (1 semaine)		FR [q1+q2] [] [2 Credits]
⊗ WIHTR2105	Stage: Gestion donneurs et collectes (1 semaine)		FR [q1+q2] [] [2 Credits]
⊗ WIHTR2106	Stage: Préparation des produits sanguins labiles (1 semaine)		FR [q1+q2] [] [2 Credits]
⊗ WIHTR2107	Stage: Contrôle qualité des produits sanguins labiles et assurance qualité (1 semaine)		FR [q1+q2] [] [2 Credits]

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

TRSF2MC - Information

Access Requirements

*In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.
Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.
The admission requirements must be met prior to enrolment in the University.*

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

SUMMARY

- [General access requirements](#)
- [Specific access requirements](#)

General access requirements

Subject to the general requirements laid down by the academic authorities, admission to the specialized Master's degree programme will be granted to students who fulfil the entry requirements for studies leading to the award of a Master's (second-cycle) degree and who hold a second-cycle diploma, degree, certificate or other qualification issued within or outside the French Community of Belgium, or whose prior learning or experience has been accredited by the Examination Board as being equivalent to at least 300 credits.

Specific access requirements

Specific Admission Requirements

Masters in medicine, in pharmacy, in biomedical sciences (120 credits) or in public health.

Teaching method

The teaching, seminars and practical work bring together courses which are necessary in understanding the bases of immunological mechanisms involving transfusion and special courses in transfusion practice. Practical work enables students to gain real experience. Placements are undertaken in the transfusion centres of the Blood Service of the Red Cross and/or in the blood banks of the University Hospital. There is no limit on the number of placements : this allows students from developing countries to take part in the activities of transfusion centres. For certain students, the type of placement may have already been decided by the authorities in their country.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

There will be an examination on the theory held after each module in accordance with arrangements recommended by the coordinator and with the current regulations. Practical work is assessed by the relevant placement director.

Mobility and/or Internationalisation outlook

This Advanced Master is open to students from developing countries.

Possible trainings at the end of the programme

This Advanced Master responds to special training needs arising from the cooperation and development programme. It is an inter-university programme, in partnership with the three Academies and with the participation of the Belgian Red Cross.
