Learning outcomes

The "Bachelor in History of Art and Archaeology: General" effectively prepares students for entry into a Master's degree programme so that they can "become critical cultural players and active citizens who have an awareness of the world's socio-cultural issues and are able to involve themselves in the major challenges and issues of today's multicultural society".

By the end of their Bachelor's degree course in History of Art and Archaeology: General, graduates will have acquired a number of different academic skills, including the ability to research precise, targeted information, analyse visual, audio and written documents or works, think critically, understand and forge links between diverse and complex subjects, and write up various academic reports and other work. They will also have a broad understanding of the main frameworks of the history of Western art, from antiquity to the present day, and a certain ability to handle corpora of archaeology-related information. Moreover, they will have acquired a knowledge of the basic theory and methodology required to understand the fields of history of art and archaeology.

These outcomes will allow them to progress to a Master's programme in History of Art and Archaeology: General, with a view to focusing on one of the specialist areas offered at Master's level and acquiring professional and targeted academic skills that can be transferred to the employment market. This Bachelor's degree will also allow graduates to move towards other, related fields with the appropriate minor subject or additional studies (for instance, a Master's in History of Art and Archaeology: Musicology, a Master's in History, a Master's in Theatre Studies, etc.).

On successful completion of this programme, each student is able to :

Specifically, graduates with a Bachelor in History of Art and Archaeology, will:

1. Have an active and comprehensive understanding of the fields of history of art and archaeology.
2. Be able to study a work, object, site or issue using methods specific to archaeology and art history studies while sharpening their powers of critical thinking.
3. Be able to apply an academic approach to targeted research. This will involve the meticulous and systematic processing of a certain quantity of data and information.
4. Be accepting of different cultures and socio-professional classes.

As with all bachelors in the Faculty of Philosophy, Arts and Letters:

5. Have a fundamental understanding of the fields of philosophy, history, art history, archaeology and literature.
6. Be able to understand and write competently on academic topics.
7. Be responsible for their own learning: organize their own workload (prioritizing, anticipating and planning all their activities over time), take a step back to critically assess the knowledge they have gained, how they have gained it and the work they have produced, and take the initiative to gain new knowledge and learn other methods and skills.
8. Be able to use the subject-specific knowledge and skills they have acquired to open their minds to other cultures and develop a sense of social responsibility and a critical approach to themselves, society and knowledge.
9. Have written and spoken fluency in at least one modern language (English, Dutch or German) with the ability to communicate clearly, coherently and in a well-argued fashion on general topics and subjects relating to their field of study.
10. Demonstrate a critical understanding and in-depth knowledge of the discipline(s) of their chosen minor subject.

Programme structure

The bachelor programme in History of Art and Archaeology : General totals **180 credits over 3 years** (3 x 60 credits). It consists of a basic major syllabus of 150 credits and a minor syllabus of 30 credits (2 x 15 credits), over years 2 and 3.

Three pivotal courses make up the 150 credits of the **major orientation** of the bachelor syllabus:

- (1) introduction to the human sciences** (historical criticism, arts and civilisations, European literature, analysis and practice of academic discourse, ancient and modern languages, philosophy, logic and argumentation, religious sciences);
- (2) introduction to the different epochs and geographical regions** of the artistic period, archaeological sites and the history of music, especially in Western Europe;
- (3) methodological and disciplinary training** (technology, aesthetics, auxiliary sciences, graphics documentation, museology, iconology).

The first year of undergraduate studies starts with a term of general foundation courses common to all of the faculty's Bachelor's programmes. Students will be introduced to history, art history, literature and the art of academic discourse, providing them with a solid grounding.

They will also receive discipline-specific courses from the first term of Year 1. These will become their core courses in the second term of Year 1.

From Year 2, students continue their studies in their major subject and are also invited to choose a 30-credit minor with a view to broadening their intellectual and professional horizons. This minor can be selected from another faculty discipline or from another UCL faculty, subject to certain admission requirements set by the programme managers.

o **Minor (30 credits)**

Students choose a minor from the list of available minors and take into account any access requirements laid down by the management bodies. They will distribute the 30 credits of the minor between the annual block 2 and the annual block 3 of their bachelor's degree, so that their course programme (major + minor) comprises 60 credits each academic year.

List of available minors

When accessing the **bachelor's cycle** (annual block 2), students are invited to broaden their educational horizons by choosing a minor (see list at the bottom of the page).

What is a minor?

It is a kind of 30-credit option that allows students to:

- discover another discipline
- reflect on their personal learning project
- define the emphasis and meaning they wish to give to their training path
- access a Master's degree more easily (see the admission requirements for the Master's degree in question).

Please note that it is not possible to register for a minor outside the bachelor's degree!

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](https://uclouvain.be/fr/decouvrir/rgee.html) (https://uclouvain.be/fr/decouvrir/rgee.html).

General access requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;
5. A pass certificate for one of the [entrance examinations](https://uclouvain.be/fr/etudier/inscriptions/examens-admission.html) (https://uclouvain.be/fr/etudier/inscriptions/examens-admission.html) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium, the German Community of Belgium or the Royal Military Academy;
7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Teaching method

The first year of the Bachelor programme in History of Art and Archaeology: General includes common Faculty courses and subject courses.

The common training includes general courses (History, Literature, Arts and Civilisations, Methods, Philosophy etc.) which are taught by teams of lecturers. They are accompanied by practical exercises and tutorial sessions which ensure that the different cross-curricular learning outcomes are integrated.

The subject courses are taught from the first term of the first cycle and form the main part of the teaching from the second term of the first year. During this year, tutorial sessions designed to help new students are led by students who are more experienced in the subject. A team of assistants also provides personal supervision for students as they progress.

Throughout the Bachelor in History of Art and Archaeology: General course, students will encounter varied teaching methods, adapted to the different learning aims: formal lectures, group work, individual work, seminars, e-portfolios, work placements and visits.

From the second term of the first year, the courses relating to the chosen subject (History of Art or Archaeology) are taught using different teaching tools, all of which are designed to promote active learning.

Students are encouraged to design their own personal project or e-portfolio throughout the Bachelor programme. With this in mind, they are invited to take part, at their own pace, in cultural events chosen from eight different kinds of activities: visits to museums, exhibitions, heritage locations, help and support for such visits, attendance at a lecture, a concert, a seminar or reading academic works. At the end of the first cycle, students will therefore have had the benefit of a series of individual experiences beyond the realms of academic teaching, the critical accounts of which are uploaded to the online UCL teaching and learning platform, Moodle. Each e-portfolio is individually assessed by a lecturer from the programme who gives students a regular feed-back on their progress. As far as students are concerned, they are encouraged to ask themselves questions about the knowledge and skills they are developing. At the end of the cycle, students are required to write a report in which they analyse and discuss their progress. This innovative teaching tool at UCL puts greater responsibility on students who need to ensure that they regularly take part in cultural events of their choosing, right from the first year of study.

The Bachelor in History of Art and Archaeology: General programme also includes work placements. Students are invited both to take part in a dig (one week) and to do a work placement relating to what they are doing in History of Art or Archaeology (two weeks). For these placements, students work in an institution (museum, cultural association, site of an archaeological dig in Belgium and abroad etc.) recognised by the lecturer in charge of the placement. This practical experience enables students to demonstrate a real commitment to their training.

Throughout the Bachelor programme, many academic visits and trips enable students to reinforce on the ground the knowledge they have acquired from the course. These trips are organised by the teaching team in relation to the subjects covered and in a progressive way.

Certain courses also make use of e-learning or online learning which involved the use of new multimedia technology and the internet to improve the quality of learning. These techniques allow, for example, distance collaboration, collective assessment of work and provide access to resources and services, such as the Image Service, through which students can access databases of high quality images and/or original ones and numerous teaching aids relating to the subjects covered, and can also scan documents, etc.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams \(https://uclouvain.be/fr/decouvrir/rgee.html\)](https://uclouvain.be/fr/decouvrir/rgee.html). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Depending on the nature of the course and the teaching methods, the evaluation will take different forms. Some courses will involve oral and/or written evaluations (held during one of the three exam sessions: January – June – August/September), whilst the evaluation of seminars will involve more substantial student participation as well as assessment of individual course work. Evaluation methods will be explained at the beginning of each course.

Those exams relating to courses on communication skills will evaluate the student's level, i.e. the practical use of the language in relevant situations.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits
