## DREU2MC - Introduction

### Introduction

## DREU2MC - Teaching profile

### Learning outcomes

The Advanced Master in European law is designed to provide students who have completed their studies in law with a specialized high level training in European law, covering both the European Community law as well as European Union law, in their material and institutional aspects. In line with the tradition established for many years at Louvain, this specialized training in European law is also firmly anchored in international law.

### Programme structure

The Advanced Master in European law is a programme lasting one academic year (60 credits) made up of three main groups of activities : seven compulsory courses (35 credits), two optional subjects chosen from a wide range of option courses (10 credits) and a final assignment done in the context of a special seminar on international law and lectures on current issues (15 credits). These sessions, as well as certain other compulsory courses and some optional subjects, are reserved for students taking the Advanced Master.

### General access requirements

Translated from [https://www.galilex.cfwb.be/fr/leg\\_res\\_01.php?ncda=39681&referant=I02](https://www.galilex.cfwb.be/fr/leg_res_01.php?ncda=39681&referant=I02)

Art. 112. § 1. In accordance with the general requirements established by the academic authorities, students who have:

1. a master's degree;
2. an academic degree similar to the one mentioned in the preceding paragraph awarded by a higher education institution in the Flemish Community or the German-speaking Community, or by the Royal Military Academy, by virtue of a decision of the academic authorities and in accordance with any additional requirements they may establish;
3. a foreign academic degree recognised as equivalent to those mentioned in paragraphs 1 and 2 pursuant to this decree, a European directive, an international convention or other legislation, in accordance with the same requirements.

The additional admission requirements referred to in paragraph 2 are intended to ensure that the student has acquired the knowledge and skills required for the studies in question. When the additional admission requirements consist of one or more additional course units, these may not represent more than 60 additional credits for the student, taking into account all the credits that he or she may otherwise use for admission. These course units are part of the student's study programme.

§ 2. In accordance with the general requirements established by the academic authorities, a student who holds a title, diploma, degree or certificate of higher education, in the French Community or outside it, which does not grant him or her eligibility for admission to a specialised master's course by virtue of the preceding paragraph, may nevertheless be admitted by the jury of the course in question, in accordance with the additional requirements that it establishes, if the totality of the higher education that he or she has completed or the expertise that he or she has acquired is valued by the jury to be at least 240 credits.

§ 3. By way of derogation from these general requirements, the academic authorities may also admit to a specialised master's course holders of a title, diploma, degree or certificate awarded outside the French Community which, in that system of origin, grants direct eligibility for postgraduate studies, even if the studies sanctioned by these credentials are not organised into distinct degree courses or within a time period of at least five years.

### Specific access requirements

The specific eligibility criteria for this programme are as follows:

Applicants must hold a Belgian master in laws or a foreign law degree that is considered equivalent, and must have obtained high grades during their studies.

The jury may also grant access to the programme to holders of other Belgian master degrees or other foreign degrees that are considered equivalent, if in its judgment the programme at stake included a significant legal dimension, and provided that students obtained high grades during their studies.

Eligibility is determined by the jury based on all elements in their admission file. Inter alia, it takes into account: the profile of previous education, a possible professional experience to the extent it is deemed relevant and significant, the motivation and training objectives, as well as the level of command of French and English.

Students who have a parallel professional occupation (lawyers, diplomats posted in Brussels, EU officials, etc.) may be authorized to break down their programme over two academic years, in accordance with UCLouvain rules.

Applications must be submitted in accordance with general rules of UCLouvain, using the [online procedure](#).

## Teaching method

---

A certain number of courses (prefixed MCEU) are specific to the Advanced Master in European Law and the Advanced Master in International law: this gives added reinforcement to the way in which international and European subjects are brought together. This is a long established Louvain tradition.

The final assignment consists of a special seminar on European law throughout the academic year for 2 hours per week starting from the 7th week of classes, as well as a series of lectures on current issues.

The specialized seminar consists of interactive sessions in which students are required to make presentations on specialized points of international public and private law. It mainly deals with recent jurisprudence and other legal documents which students are required to comment on. Each student is assigned different presentations based on the reading that all students have to do. The final written assignment is an overview of these presentations and a critical dissertation relating to the lectures on current issues.

Experience has shown that this way of working is more helpful and effective for students, particularly those from foreign countries, than the solitary production of a traditional 'dissertation', possibly in another language.

## Evaluation

---

***The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".***

The final assessment is continuously assessed ; there is also an assessment of the written overview and the dissertation. Apart from this, assessment is through written or oral examinations.

## Possible trainings at the end of the programme

---

Le Master complémentaire en droit européen s'inscrit dans la suite du Master en droit; il est accessible aux titulaires d'une formation en sciences juridiques ou d'une autre formation à contenu juridique marqué.
