GESM2M1 - Introduction

Introduction

Introduction

This one-year Master's programme includes most elements of the core management programme. It aims to teach the main management concepts to supplement your first degree obtained in another field.

Your profile

You

- have a university degree in science, applied science or human science;
- would like to further your education with a management course;
- would like to add value to your degree by developing an understanding of management issues faced by the organisations or companies where you will be working;
- have a Bachelor's degree in Economics and Management awarded in the French Community of Belgium.

Your future job

A position of responsibility in corporate leadership and management in which you can put into practice your ability to undertake initiatives, transform them into economic realities, organise and ensure the continuity of these activities, seek out the necessary resources and combine them in an appropriate manner.

Our management graduates make a career for themselves in many sectors, including industry (production and operations management), banking and insurance, auditing and large-scale retail, in private companies, public organisations, SMEs, multinationals and consultancy firms.

They hold positions of responsibility such as management controller, company auditor, investment adviser, financial analyst, HR development manager, project manager, IT consultant, sales manager, purchasing manager, logistics manager or environmental manager.

Your programme

The programme comprises four elements:

- a common core curriculum (30 credits) comprising courses on the key aspects of management;
- training in the principles and issues of corporate social responsibility, digital transformation and social changes affecting management phenomena;
- electives to further your knowledge of certain fields of management;
- an individual final project.

Note that, depending on your previous studies, some course units (= prerequisite courses) may be added to your Master's programme.

GESM2M1 - Teaching profile

Learning outcomes

The Master [60] in Management programme prepares graduates to take up the challenge **to become socially responsible professionals with a comprehensive overview of the various management functions.**

The programme develops the fundamental skills and expertise required for management functions in public and private, national and international, commercial and non-commercial organisations.

Students embarking on this programme will already have a Master's degree in a subject other than management or a Bachelor's degree in Management. This Master's programme will enable them to broaden or further their knowledge of management functions by adopting an academic approach, reflective thinking and a critical perspective.

On completion of this programme, graduates will be:

Responsible:

Able to implement socially responsible management practices in public or private organisations.

A professional who:

- has assimilated basic management theories and concepts and has the expertise to use them effectively in a future professional environment;
- is able to situate the complex and varied challenges faced by commercial and non-commercial organisations in the various fields of management;
- is able to place organisations in their socio-economic and institutional context to understand the interdependencies between organisation and environment and translate them into management decisions;
- will have developed basic competence in all the key management functions.

Aware of the responsibility inherent in their profession, graduates must be able to step up to the mark as a key player, demonstrating the ability to make decisions in organisational environments with a constant concern for **ethical values and socially responsible management**. A continuous development mindset will produce professionals with versatility, adaptability and the ability to progress in their profession.

On successful completion of this programme, each student is able to :

Preamble

The exit profile of Master [60] in Management graduates is set out in the LSM competency framework with the following specifics:

- a background in management studies;
- priority skills:
 - a socially responsible mindset;
 - acquired knowledge;
 - ability to act as an interface by capitalising on their previous personal experience;
- the possibility of developing some of these skills in greater depth through their choice of options and dissertation.

1. Corporate citizenship

Act consciously, aware of their responsibilities, placing human and ethical considerations at the very heart of their thinking and actions.

1.1 Demonstrate independent reasoning, look critically and consciously at acquired knowledge (both academic and common sense) and managerial practices, in light of emerging circumstances and their outcomes.

1.2 Decide and act by incorporating ethical and humanistic values, integrity, respect for the laws and conventions, solidarity and civic action, and sustainable development.

1.3 Decide and act responsibly, while taking into account the social, economic and environmental, sometimes antinomic, outcomes in the short, medium and long term, for the various stakeholders.

2. Knowledge and Reasoning

Master an active and integrated command of a multidisciplinary body of knowledge (content, methods, models, conceptual frameworks) essential to act expertly in the various areas of management.

2.1 Master the core knowledge of each area of management.

2.2 Master highly specific knowledge in one or two areas of management: advanced and current research-based knowledge and methods.

2.3 Articulate the acquired knowledge from different areas of management.

2.4 Activate and apply the acquired knowledge accordingly to solve a problem.

2.5 Contribute to the development and advancement of the management field.

3. A scientific and systematic approach

Analyze and resolve problems in multidisciplinary and complex management situations using a scientific and systematic approach.

3.1 Conduct a clear, structured, analytical reasoning by applying, and eventually adapting, scientifically based conceptual frameworks and models, to define and analyze a problem.

3.2 Collect, select and analyze relevant information using rigorous, advanced and appropriate methods.

3.3 Consider problems using a systemic and holistic approach: recognize the different aspects of the situation and their interactions in a dynamic process.

3.4 Perceptively synthesize the essential elements of a situation, demonstrating a certain conceptual distance, to diagnose and identify pertinent conclusions.

3.5 Produce, through analysis and diagnosis, implementable solutions in context and identify priorities for action.

4. Innovation and Entrepreneurship

Innovate, initiate and lead change.

4.1 Identify new opportunities, propose creative and useful ideas in situations that require new strategic approaches, break with existing models and paradigms, promote progress and change.

4.2 Initiate, develop and implement ideas around a new product, service, process or organizational structure, having evaluated the risks and remain pragmatic.

4.3 Integrate, collaborate and actively drive forward collective actions for change, and diffuse for social awareness.

4.4 Reflect on and improve the content, processes and goals of professional practices.

5. Work effectively in an international and multicultural environment

Work as an interface between stakeholders with different rationales, belief systems, training, nationalities, cultures ...

5.1 Understand the inner workings of an organization: develop a global approach and integrate the internal logic used, within the organization.

5.2 Position and understand the functioning of an organization, in its local and international socio-economic dimensions and identify the associated strategic issues and operational decisions.

5.3 Understand and establish their own role and scope for action, in the overall operation of the organization, while liaising with the various internal and external stakeholders.

6. Teamwork and leadership

Integrate and work in a team, exercise enlightened leadership within the group.

6.1 Work in a team: join in and collaborate with team members. Be open and take into consideration the different points of view and ways of thinking, manage differences and conflicts constructively, accept diversity.

6.2 Work in a team: join in and collaborate with team members. Be open and take into consideration the different points of view and ways of thinking, manage differences and conflicts constructively, accept diversity.

7. Project Management

Define and manage a project to completion, taking into account the objectives, resources and constraints that characterize the project environment.

7.1 Analyse a project within its environment and define the expected outcomes: identify what is at stake, the required outcomes and the environmental constraints; clearly define the project objectives and associate the performance indicators.

7.2 Organize, manage and control the process: structure and schedule the tasks, identify and allocate human and material resources, coordinate, delegate and supervise the tasks; take into account the anticipated constraints and risks.

7.3 Make decisions and take responsibility for them in an uncertain world: take initiatives and act, anticipate and be proactive, show discernment and good judgment and be prepared to make quick decisions, taking into account multiple factors and uncertainties; accept the risks and consequences of decisions.

8. Communication and Interpersonal Skills

Communicate, converse effectively and convincingly with the stakeholders.

8.1 Express a clear and structured message, both orally and in writing in their mother tongue, in English and ideally, in a third language, adapted to the audience and using context specific communication standards.

8.2 Interact and discuss effectively and respectfully with diverse stakeholders (supervisors, peers, colleagues, clients...) in face-to-face and group contexts, using both verbal and nonverbal communication skills: demonstrate the ability to listen, empathize, be assertive, provide and accept constructive criticism.

8.3 Persuade and negotiate: understand the needs and viewpoints of others, put forward their reasoning in an appropriate, relevant and persuasive manner, able to bring out points of agreement, even in antagonistic situations.

9. Personal and professional development

Display self-knowledge and independence, able to adapt quickly to new situations and involve positively.

9.1 Independent self-starter: set priorities, anticipate and plan work activities within time constraints, rigorous, structured and thorough, even in changing, uncertain environments or crisis.

9.2 Self-awareness and self-control: be aware of and manage their own emotions, able to be objective about their work and behaviour, and recognize their own strengths and weaknesses, accept them and use them in a professional manner.

9.3 Self-motivation: be capable of creating a project in line with their own values and aspirations, confident and motivated in managing the implementation of the project, and persevere in difficult situations.

9.4 Quick study, lifelong learner: quickly and independently assimilate new information and skills needed to evolve in their professional environment, learn from successes and errors in the spirit of lifelong learning.

Programme structure

The Master [60] in Management comprises the following four elements:

- a common core curriculum (30 credits) comprising courses in the key aspects of management;
- training in the principles and issues of corporate social responsibility, digital transformation and social changes affecting management phenomena;
- electives to further your knowledge of certain fields of management;
- an individual final project.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

GESM2M1 - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

SUMMARY

		Access based on application	
Masters			
Tous les masters		Access based on application	
		Access based on application	

Holders of a non-University 2nd cycle degree

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Access based on application

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

Admission and Enrolment Procedures for general registration

Teaching method

This programme offers general training in the various fields of management without seeking to go into any of them in depth. It is therefore an introduction to management.

The main aim is to immerse students in these different fields to give them an overall understanding of the business world and develop their managerial mindset and decision-making capabilities. Therefore, in addition to theory courses to provide a framework for learning, there are case studies and problem-solving sessions. With the same goal in mind, there is frequent use of group work.

The programme attracts students of many nationalities and with very varied educational backgrounds. Through the exchange of very different points of view between students, lecturers, assistants and outside speakers, they gain a broader perspective of management and economics.

For students who have a gap in their economics or maths/statistics education, extra courses will be added to their programme to provide them with the prerequisites they need to gain a good understanding of management.

The theory courses are accompanied by exercise sessions, supervised individual or group assignments, business simulation games, etc. to help students grasp and digest the concepts taught, even those students whose first degree is in a subject with little connection to management. This support for students through numerous exercises is in line with the teaching reform that has taken place at LSM in recent years. It has been well received by the students and was also recently highlighted by the external auditors undertaking the EQUIS accreditation procedure.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading “Learning outcomes evaluation method”.

Several assessment methods are used in this programme, with a particular focus on what are known as “active” teaching methods, which encourage students to take an active role in the learning process:

- **continuous assessment** of each student’s output/acquired knowledge, individually or in groups: presentations, moderation of debates, written reports;
- **ad hoc assessment** of acquired knowledge via written and oral exams after the six-week course block or during the examination sessions.

To find out more about assessment, click on the title of the course to see the course description.

Mobility and/or Internationalisation outlook

The Master [60] in Management programme has no mobility element.

Possible trainings at the end of the programme

Students may apply for and, if successful, access the [Master \[120\] in Management](#).
