MINSPOL - Introduction

Introduction

MINSPOL - Teaching profile

Learning outcomes

To give the student a better understanding of " politics ", through an introductory course covering the three core dimensions of politics (studied in greater depth in the baccalaureate in political science) :

- the way the state and its various institutions are run, the various actors and groups who compete to direct the running of public affairs, the attitudes and behavior of citizens, both in Belgium and in a comparative fashion;
- the major developments in international relations and institutions;
- public action : the role of public administration, public policy, relations between those in administration and citizens, the way public action is assessed

On successful completion of this programme, each student is able to :

1. Maîtriser, avec la rigueur exigée par les sciences politiques, les fondements théoriques (connaissances, concepts, outils, ...) qui constituent les prérequis indispensables dans une perspective de (ré)orientation vers le master en sciences politiques.

2. S'appropriier et maîtriser les fondements de la démarche de recherche scientifique (méthodologie de recherche) spécifique aux sciences politiques, prérequis indispensables dans une perspective de (ré)orientation vers le master en sciences politiques.

3. Faire preuve d'une capacité d'un mode de raisonnement spécifique aux sciences politiques avec rigueur.

4. Appréhender, questionner, analyser, discuter et résoudre une problématique des sciences politiques, en mobilisant les fondements disciplinaires et méthodologiques pertinents.

5. Développer un angle de lecture et une analyse critique et réflexive spécifiques aux sciences économiques

THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

MINSPOL - Information

Access Requirements

All baccalaureate students are admitted onto the course. The minor in political sciences is recommended to students who are looking for a course to complement their training in human science, hoping to gain an additional 'insight' into another subject or a course to enrich a baccalaureate program, by adding a rigorous analysis of current political phenomena and issues.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Possible trainings at the end of the programme

- Direct access to the master's in political sciences for bachelors in human and social science and for bachelors in sociology and anthropology.
- Access under conditions for other bachelors (with the consent of the person in charge of the program) : consideration will be given to all of the courses the student has taken as part of his/her baccalaureate, and in the event of some course not having been taken, these will be added to the Master's in Political Science program (maximum 15 credits).
