DROB1BA - Introduction

Introduction

Introduction

Law is the set of legal rules which organises life in society. The aim of law studies is to prepare students to be able to meet the legal challenges of today and tomorrow. With globalisation, sustainable development, the digital economy, energy transition, etc., legal practitioners must deal directly with the political, economic, social and cultural challenges facing contemporary society. For this reason, the bachelor's degree in law has two objectives:

- firstly, through law courses, it provides a comprehensive grounding in the main branches of law and gives students the ability to understand and use legal reasoning;
- secondly, through courses in the humanities and social sciences, it enables students to acquire a solid academic grounding in these different fields, which can contribute to a critical understanding of legal issues (including ethical, political and socio-economic issues).

The programme is therefore not limited to a study of legal rules, but also looks at the values which underlie them and how they are put into context.

The teaching methodology combines traditional 'in-theatre' lectures with more practical classes which require student participation (including seminars, practical work, tutorials, access to digital legal resources, work 'shadowing' to gain practitioner experience, moot court competitions, etc.).

This background is an essential first step to becoming a good practitioner on completion of a master's degree in law, or to gaining access to other master's degrees (e.g. master's degree in criminology).

Your profile

The study of law requires special intellectual skills: the precise use of language, a capacity for reasoning, abstract thinking, analysing and summarising, and a critical mind. In-depth knowledge of ideas and concepts is essential. The main part of a legal practitioner's approach involves defining and classifying concepts. Legal practitioners are expected to have a keen sense of justice and fairness. Extreme rigour in oral and written expression is absolutely essential.

Your future job

Lawyers can be found wherever human activity brings together parties who make commitments towards each other (drawing up agreements, negotiating contracts, settling disputes, resolving conflicts and defending interests).

Their skills are also widely recognised in the business world and in national and international civil services. Lawyers can also be found in the socio-cultural and health sectors, in journalism and in education.

The bachelor's degree in law leads to a master's degree in law, which opens up a wide range of career opportunities. In addition to careers as lawyers, magistrates, notaries or bailiffs, the skills of legal professionals are also widely recognised in the business world and in national and international civil services. Lawyers have an important and recognised role to play, as companies have to deal with increasingly complex and changing legislation in the area of industrial, commercial and financial operations, in addition to more recent areas such as environmental protection or consumer law. All levels of the civil service make extensive use of lawyers: federal, regional, community, provincial and municipal administrations, as well as public economic, social, cultural and youth services, etc.

Your programme

Features of the law programme at UCLouvain Saint-Louis - Bruxelles:

- **Interdisciplinarity:** the programme puts the law into context by addressing the disciplines which it is based on (sociology, history, philosophy, psychology, etc.).
- **Language learning:** students can learn Dutch and English through the development of specific knowledge and an understanding of legal vocabulary.
- **Links with practice:** the programme includes many practical exercises and seminars providing a background in written and oral communication. A work 'shadowing' internship to gain practitioner experience is offered at the end of the bachelor's degree, as well as a number of moot court competitions.
- **International mobility:** the faculty has an active network of partners in Belgium and elsewhere. In the second year, students can take part in an [Erasmus programme](#) (30 credits) at a partner university.
- **Critical thinking:** with a view to teaching students about the research process and the objective consideration of the law and its issues, they are asked to produce and present a research paper during a legal theory seminar at the end of their bachelor's degree.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;
5. A pass certificate for one of the [entrance examinations](https://uclouvain.be/fr/etudier/inscriptions/examens-admission.html) (https://uclouvain.be/fr/etudier/inscriptions/examens-admission.html) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium, the German Community of Belgium or the Royal Military Academy;
7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

Note:

Requests for equivalence must be submitted to the Equivalence department ([Service des équivalences](#)) of the Ministry of Higher Education and Scientific Research of the French Community of Belgium in compliance with the official deadline.

The following two qualifications are automatically deemed equivalent to the Certificate of Upper Secondary Education (Certificat d'enseignement secondaire supérieur – CESS):

- European Baccalaureate issued by the Board of Governors of a European School,
- International Baccalaureate issued by the International Baccalaureate Office in Geneva.

8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

Specific access requirements

- Access to bachelor programmes for candidates of nationality outside the European Union who are not assimilated to Belgian nationals is subject to the following criteria:
 - not have obtained a secondary education diploma for more than 3 years maximum. Example: for an admission application for the academic year 2023-2024, you must have obtained your diploma during the academic years 2020-2021, 2021-2022 ou 2022-2023. In the French Community of Belgium, the academic year runs from September 14 to September 13
 - not already hold an undergraduate degree
- Candidates, whatever their nationality, with a secondary school diploma **from a country outside the European Union**, must have obtained an average of 13/20 minimum or, failing that, have obtained this average, have passed one year of study in Belgium (for example special Maths / sciences). A non-successful year will not be taken into consideration.

- For any secondary school diploma **from a European Union country**, the admission request must contain the equivalence of your diploma or, at the very least, proof of the filing of the equivalence request with the Wallonia-Brussels Federation (French Community of Belgium). For any information relating to obtaining an equivalence, please refer to [the following site](#).
- For any secondary school diploma **from a country outside the European Union**, the admission application must contain the [equivalence of your diploma](#) issued by the Wallonia-Brussels Federation (French Community of Belgium). If you have a restrictive equivalence for the programme of your choice, in addition of it, you **must** have either the [DAES](#) or a certificate of successful completion of the [examination giving access to 1st cycle studies](#) when you submit your application

Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Teaching method

Learning to practise law

Tutorials, seminars and practical work complement the knowledge acquired in lectures, and enable small groups to compare the general, abstract nature of the rule of law with real-life situations.

During practical exercises, students take part in mock trials, draw up pleadings, work on finding solutions to real cases, analyse various documents, etc.

The written work which students complete as part of their practical work teaches them to formulate a legal question, find solutions to it by carrying out documentary research and formulate their results appropriately.

In order to equip students as best as possible, expose them to situations and help them carry out practical work in the best possible conditions, the faculty provides them with:

- computer rooms providing access to legal databases;
- a courtroom for mock trials and moot court competitions;
- the law library, with thousands of references available.

Methodological assistance

The Saint-Louis - Bruxelles campus places great importance on educational support for all bachelor's programmes. The Academic Guidance Service (AGS) offers a range of learning support activities and is available to meet students who wish to do so.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](https://uclouvain.be/fr/decouvrir/rgee.html) (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Three examination sessions are organised during the academic year, in January, June and August/September. First-year students who do not achieve passing grades in the January session have two opportunities to retake specific examinations, in June and September.

Each year, educational activities such as seminars and practical work are assessed in terms of the quality of the written work students are required to produce and their attendance at group sessions and individual meetings.

Mobility and/or Internationalisation outlook

Erasmus exchange programme

Law students can take part in an Erasmus exchange programme during the second term of year 2. The exchange programme is equivalent to 30 credits. Their course programme at Saint-Louis - Bruxelles is adapted accordingly.

The university has exchange agreements with universities outside the Fédération Wallonie-Bruxelles. These agreements allow students to take part of their bachelor's degree programme at a partner university while remaining enrolled at UCLouvain Saint-Louis - Bruxelles.

Three types of exchange are available:

1. **Erasmus exchanges** with universities in European Union countries
2. **Erasmus Belgica exchanges** with Dutch-language Belgian universities
3. **exchanges with universities outside Europe**, on the basis of bilateral agreements

Language study grants

The Saint-Louis Faculty of Law awards grants to students for language courses during the summer in countries where English, Dutch, German, Italian or Spanish are the official languages. The selection of candidates is based on motivation and success during the January session.

In addition, the University encourages and provides financial support for taking language tests (TOEFL, IELTS, etc.) and participating in various events held abroad, such as UN simulation sessions and supranational court hearings (European Court of Human Rights, Court of Justice of the European Union, etc.), study trips to London and international moot courts.

Possible trainings at the end of the programme

The basic law programme is divided into **two cycles**: the **three-year bachelor's degree** (180 credits) and the **two-year master's degree** (120 credits). The studies therefore take five years to complete.

Through the specialisation and deepening of knowledge, the **master's degree** enables students to acquire more advanced knowledge in their field, as well as the skills and expertise needed to practise a profession in law, education or research. The basic programme may be supplemented by a 60-credit, one-year **advanced master's degree**.

On completion of the bachelor's degree in law, students have direct access to the master's degree in law. In addition, certain master's degrees are accessible to students with a bachelor's degree in law, either directly (e.g. the master's degree in European studies), or through the completion of elective courses (e.g. the following three courses: Introduction à la pensée pénale et criminologique II, Questions spéciales de psychologie en rapport avec le droit et les sciences humaines, Questions approfondies de droit pénal et de procédure pénale, in order to gain access to the master's degree in criminology).
