HIAB1BA - Introduction

Introduction

Introduction

The Faculty of Philosophy, Languages & Letters, and Human Sciences Saint-Louis offers a **bilingual French-English** bachelor's degree in history. This programme is the only one of its kind in French-speaking Belgium, and combines general courses, history courses and practical education in both languages. Students will develop academic, linguistic and intercultural skills.

Students take a language test during the first week in order to assess their level of English. Students can join the [French bachelor's degree programme](#) at any time.

Studying history

The study of history means learning about the past as well as taking a retrospective look at the human adventure, thereby helping us to understand the contemporary world and build the one to come.

The study of history means exploring and understanding periods other than our own. It allows us to learn how to build bridges between generations and cultures, which is a necessary step in the face of global human and environmental challenges.

This implies that students will learn specific ways to formulate a coherent research question, locate and make use of the works and sources available for this purpose, and analyse them by developing a critical and reasoned approach. These different stages of historical work will enable them to master the subject in depth and present it orally or in written form.

Your profile

Are you passionate about understanding past and present realities and the connections between them? Do you like to discover new things on your own through research in libraries and archives? Do you consider that acquiring a broad general knowledge is a main objective of your studies? To achieve this, are you able to show rigour, critical thinking and precision? These are just a few of the skills you will use and develop as you study history.

The choice of a bilingual bachelor's degree reflects your interest in the English language, which you have at least a minimum knowledge of without claiming to be perfectly bilingual.

Your future job

Historians stand out for their methodical and organised approach to research, their ability to collect, analyse and summarise information, and their refined critical thinking skills. These assets make them ideal candidates for work in:

- education;
- conservation: archives, museums, libraries;
- public administration: international, federal, regional and local;
- research: universities, public and private institutes;
- the socio-cultural sector: exhibitions, cultural centres;
- the media: journalism, cultural communication;
- associations: non-governmental organisations, non-profit associations and other organisations with a social vocation;
- the banking sector;
- the diplomatic service, etc.

Your programme

The strengths of the bilingual history programme at UCLouvain Saint-Louis - Bruxelles:

- A solid knowledge of history: numerous theoretical courses on periods in history or specific themes (history of justice, historical geography, etc.) enable students to gain an in-depth understanding of entire eras of the past, as well as the present.
- Links to practice: from year 1 onwards, the programme provides a background in the various facets of the work of a historian: introduction to the various sources of information, research and classification of sources, critical analysis of records, making summaries, etc.
- Critical thinking: during seminars, students are asked to produce and present research papers, with a view to teaching them about the research process and the objective consideration of history and its issues.
- Interdisciplinarity: in year 1, students take courses in other areas of the humanities, such as sociology, law, philosophy and literature.
- Intellectual openness: in years 2 and 3, students can choose three optional courses in different disciplines, such as European studies, political science, communication sciences or literature and civilisations.
- Educational support: specialisation courses are taught in small groups, ensuring close contact and personalised support from the teaching staff.
- Learning in English: students acquire knowledge and understanding of a vocabulary specific to history in English. Students can also develop their oral and written communication skills in English. At least 60 of the 180 credits in the bachelor's degree in history will be taught in English. This is a fundamental asset on the job market.

Pursuing a dual bachelor's degree

Our dual bachelor's degrees are one of the special features of UCLouvain Saint-Louis - Bruxelles.

Students can take a second bachelor's degree, in tandem with their main bachelor's degree. This means that they complete their main programme with a minimum of 60 and a maximum of 125 additional credits spread over several years. The additional bachelor's degree can be completed after the main bachelor's degree. A series of courses taken as part of the main programme count towards the

additional bachelor's degree and are therefore no longer subject to assessment. The additional bachelor's degree has the same value as the main bachelor's degree and provides immediate access to the corresponding master's degree.

The following additional bachelor's degrees are available:

- [Bachelor in Philosophy \[Dual Bachelor's degree for the holder of a Bachelor in History\]](#)
- [Bachelor in Political Sciences \[Dual Bachelor's degree for the holder of a Bachelor in History\]](#)
- other additional bachelor's degrees on request.

Programme structure

Theoretical knowledge combined with learning about the work of a historian

The bilingual bachelor's degree in history at Saint-Louis - Bruxelles combines historical knowledge courses with a hands-on approach to the work of a historian. The Faculty provides students with a background in the various aspects of a historian's profession:

- use of the range of information sources, from the first engraved inscriptions to handwritten texts and digital documents
- research and classification of sources
- critical analysis of records
- production of summaries which meet the requirements of academic writing

The periods of history, from the dawn of humanity to the present time, are approached in such a way as to raise awareness of the various main lines and levels of historical inquiry, such as global history, thematic history and memory-related history.

Reinforced by general courses common to the Faculty of Philosophy, Languages and Letters and Human Sciences, the programme teaches students how to build bridges between generations and cultures, which is a necessary step in the face of global human and environmental challenges.

Teaching is organised according to a progressive model: from fairly general courses in year 1 to increasingly specialised courses. This specialisation is further developed in the master's programme.

A choice of options in English

Part of our general and specialised courses are taught in English. In addition to these courses, students in the bilingual history programme choose from a selection of English-language electives (5 credits in year 2, 10 credits in year 3).

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](https://uclouvain.be/fr/decouvrir/rgee.html) (<https://uclouvain.be/fr/decouvrir/rgee.html>).

HIAB1BA - Information

Access Requirements

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.

The admission requirements must be met prior to enrolment in the University.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

SUMMARY

- [General access requirements](#)
- [Specific access requirements](#)
- [Access based on validation of professional experience](#)
- [Special requirements to access some programmes](#)

General access requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;
5. A pass certificate for one of the [entrance examinations](https://uclouvain.be/fr/etudier/inscriptions/examens-admission.html) (https://uclouvain.be/fr/etudier/inscriptions/examens-admission.html) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium, the German Community of Belgium or the Royal Military Academy;
7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

Note:

Requests for equivalence must be submitted to the Equivalence department ([Service des équivalences](#)) of the Ministry of Higher Education and Scientific Research of the French Community of Belgium in compliance with the official deadline.

The following two qualifications are automatically deemed equivalent to the Certificate of Upper Secondary Education (Certificat d'enseignement secondaire supérieur – CESS):

- European Baccalaureate issued by the Board of Governors of a European School,
- International Baccalaureate issued by the International Baccalaureate Office in Geneva.

8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

Specific access requirements

- Access to bachelor programmes for candidates of nationality outside the European Union who are not assimilated to Belgian nationals is subject to the following criteria:
 - not have obtained a secondary education diploma for more than 3 years maximum. Example: for an admission application for the academic year 2023-2024, you must have obtained your diploma during the academic years 2020-2021, 2021-2022 ou 2022-2023. In the French Community of Belgium, the academic year runs from September 14 to September 13
 - not already hold an undergraduate degree
- Candidates, whatever their nationality, with a secondary school diploma **from a country outside the European Union**, must have obtained an average of 13/20 minimum or, failing that, have obtained this average, have passed one year of study in Belgium (for example special Maths / sciences). A non-successful year will not be taken into consideration.

- For any secondary school diploma **from a European Union country**, the admission request must contain the equivalence of your diploma or, at the very least, proof of the filing of the equivalence request with the Wallonia-Brussels Federation (French Community of Belgium). For any information relating to obtaining an equivalence, please refer to [the following site](#).
- For any secondary school diploma **from a country outside the European Union**, the admission application must contain the [equivalence of your diploma](#) issued by the Wallonia-Brussels Federation (French Community of Belgium). If you have a restrictive equivalence for the programme of your choice, in addition of it, you **must** have either the [DAES](#) or a certificate of successful completion of the [examination giving access to 1st cycle studies](#) when you submit your application

Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Special requirements to access some programmes

- Admission to **undergraduate studies in engineering: civil engineering and architect**

Pass certificate for the [special entrance examination for undergraduate studies in engineering: civil engineering and architect](https://uclouvain.be/fr/facultes/epl/examenadmission.html) (<https://uclouvain.be/fr/facultes/epl/examenadmission.html>).

Admission to these courses is always subject to students passing the special entrance examination. Contact the faculty office for the programme content and the examination arrangements.

- Admission to **undergraduate studies in veterinary medicine**

[Admission to undergraduate studies in veterinary medicine is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](https://uclouvain.be/en/study/inscriptions/etudes-contingentes.html) (<https://uclouvain.be/en/study/inscriptions/etudes-contingentes.html>).

Teaching method

Courses, seminars

Teaching methods vary according to the content and objectives of the course or seminar. They may include: presentations followed by discussions and question and answer sessions between the course lecturer and students; student presentations; or lectures followed by discussions. Specialised courses are taught in small groups, and the teaching staff are composed of lecturer-researchers who are available to students.

Being located in Brussels means that students have the opportunity to access major library collections and archives, which are essential in learning about the work of a historian. The programme also includes a practical introduction to the use of non-textual sources, such as images, monuments and historic sites.

Methodological assistance

UCLouvain Saint-Louis - Bruxelles places great importance on educational support for all bachelor's programmes. The Academic Guidance Service (AGS) offers a range of learning support activities and is available to meet students who wish to do so.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Examinations are held in January, June and September. First-year students who do not achieve passing grades in the January session have up to two opportunities to retake specific examinations, in June and/or September. In the second and third years, students have two opportunities during the academic year to take their exams.

Assessment can be written, oral or based on the presentation of a work. Specific courses and practical seminars require active participation, which may be assessed. Assessment procedures are specified in the course descriptions.

Mobility and/or Internationalisation outlook

Exchange programmes

Students can take part in an exchange programme during the first term of the third year. Selection is based on credits already earned, marks and motivation.

Three types of exchange are available:

1. **Erasmus exchanges** with universities in European Union countries
2. **Erasmus Belgica exchanges** with Dutch-language Belgian universities
3. **exchanges with universities outside Europe.**

Find out more about the [destinations](#).

Language study grants

Students who have submitted a motivated request and have obtained sufficient marks in their June exams can obtain a grant for taking language courses in a European country during a holiday period. The proposed destinations include Spain, Italy, Germany, the UK and the Netherlands. The grant covers up to half the cost of the language course and accommodation.

Possible trainings at the end of the programme

The bachelor's degree in history gives direct access to the master's degree in history (120 and 60) organised under the Fédération Wallonie-Bruxelles.

Master's degrees available at UCLouvain

Direct access

- **Master [120] in History** (Louvain-la-Neuve) et **Master [60] in History** (Louvain-la-Neuve)

Other master's degrees available on completion of the programme

The bachelor's degree in history also allows access to other master's degree programmes organised by UCLouvain, subject to compliance with the admission requirements for these programmes. In some cases, this requires the completion of certain course units (see the admission requirements for the master's degree programme in question).
