SC

CHIM2156 Exercices et séminaires de chimie analytique II

[45h+15h exercises]

**Teacher(s):** Paul Rouxhet  
**Language:** french  
**Level:** 2nd cycle course

## Aims

- knowledge of main instrumental methods of analysis : basic principles, equipment, applications and performances,
- acquisition of an operational capacity in the domain of chemical analysis : choice of a method, using it, evaluation.
