ESPO

FIN3950

Atelier de lecture en gestion financière

[30h]

Teacher(s): Nihat Aktas, Yves De Rongé, Pierre Devolder, Philippe Grégoire
Language: french
Level: 3rd cycle course

Main themes

This reading workshop aims to provide students with a place for reflection on the most recent advances and research trends in this field, in terms of both directions and managerial or strategic methods and implications.

Content and teaching methods

Content

The support for this workshop will take the form of a list of articles taken from the leading scientific journals (or from chapters of books) in the field. The content, like the members of the academic staff sharing the teaching, may vary from year to year.

Methodology

Before each session, participants will make a private and detailed study of the documents to be discussed. The session will aim to raise any difficulties of comprehension that there may be, and to analyse critically the conceptual aspects of the works that have been studied, their methodological choices, and their contributions to the evolution of knowledge. The workshop will meet once a fortnight over two terms.

Other credits in programs

ECGE3DA Diplôme d'études approfondies en économie et gestion
