

# Faculté de philosophie et lettres

**FLTR**

**GERM2312** Didactique de l'allemand

[15h+15h exercices] 4 credits

**Teacher(s):** Henri Bouillon  
**Language:**  
**Level:** 2nd cycle course

## Aims

The students should acquire the knowledge, the skills and know-how as well as the existential competence necessary to teach German as a foreign language.

## Main themes

1. The goals and objectives of the teaching of German as a foreign language.
  2. The description and illustration of approaches, aids and teaching/learning techniques in the field of German as a foreign language.
  3. The conception and critical discussion of teaching/learning sequences (including formative and summative testing).
- The first part (15 periods) consists in lectures, while the seminar part will take the form of workshops in which the students present lessons which are analyzed and discussed in connection with their teaching practice.

## Content and teaching methods

The goals and objectives of the teaching of German as a foreign language ; the description and illustration of approaches, aids and teaching/learning techniques in the field of German as a foreign language ; the conception and critical discussion of teaching/learning sequences (including formative and summative testing) ; the seminar part will take the form of workshops in which the students present lessons which are analyzed and discussed in connection with their teaching practice.

## Other information (prerequisite, evaluation (assessment methods), course materials recommended readings, ...)

### Prerequisites:

The students are asked to do some further readings (articles, manuals, internet sites, etc.).

### Assessment :

The oral examination may consist in the oral presentation and discussion of a teaching/learning sequence.
