[30h] 5 credits

This course is taught in the 2nd semester

Teacher(s): Amine Ait-Chaalal, Daniel Grodos, Brigitte Piquard, René Tonglet
Language: french
Level: 3rd cycle course

Aims

To address a specific theme of humanitarian aid using a multi-disciplinary approach that embraces a number of different basic disciplines tackled in the first term.

To compare theory and practice in debate with actors in the field.

Content and teaching methods

Content

Transversal analyses on subjects linking aspects of geo-politics and public health.

The themes selected will be:

- the geopolitics of medicine;
- humanitarian aid and the environment.

Methodology

Students will have to prepare group work on an agreed subject, and present it to actors in the field.

This work will be the subject of a debate.

Other information (prerequisite, evaluation (assessment methods), course materials recommended readings, ...)

Group work to be presented during the seminar, and to be defended orally.

To be decided, depending on the themes.
