

ANGL2452 Interactive communication

[15h] 2 credits

This course is taught in the 1st semester

Teacher(s): Jennifer Moreman, Sandrine Mulkers, Marc Piwnik, Françoise Stas
Language: French
Level: Second cycle

Aims

Speaking

. Presentation :

The student must acquire the following skills :

- give a scientific presentation on his/her field of study

. In groups :

- participate in a meeting linked to his/her field of study

. Level to be reached for the "Common European Framework of Reference for languages" :

. The level to be reached in those skills by the end of the course is level B2 of the 'Council of Europe'.

Main themes

Course specifications

- Course aimed at teaching the students the techniques of presentation on a scientific subject linked to their field of study.

- Video input (on presentation techniques) is analysed extensively and intensively.

- Major lexical and grammatical mistakes are corrected during the classes.

- Oral production is stimulated during the classes.

- Students are encouraged to use any visual means they think fit to illustrate their presentation in a useful and original way. (video, power point, transparencies etc ;)

- Detailed feedback report is given to the student after his/her oral presentation on his/her main lexical, grammatical and pronunciation mistakes.

Other information (prerequisite, evaluation (assessment methods), course materials recommended readings, ...)

Pre-requisites

ANGL 1850 in BAC 2 or equivalent. Students must have reached level B1 (upper) of the Common European Framework of Reference for Languages (Council of Europe)

Volume of work :

- Attendance : 15 hours
- Self-study : 45 hours

Organisation

- Maximum 20 students per group.
- Each teacher is available during his/her office hours and may be contacted by email.

Pedagogical support:

Course notes ANGL 2454.

Evaluation

- 1) Continuous assessment : class participation and oral presentation in class
- 2) Interactive oral exam with a role-play on a subject linked to the field of study

Other information

This course is followed by a scientific presentation in English for a course entitled 'Chimie pharmaceutique et organique' in Master 2. Students must be able to put the techniques of presentation that they acquired the year before into practice, this time for a specifically scientific presentation.
