

BIO1181

Project

[+45h exercises] 3 credits

Teacher(s): Philippe Fonck, André Lejeune, Chantal Marchand, Jean-François Rees
Language: French
Level: First cycle

Aims

For each student :

- Integrating a group of students sharing common interests, collaborating towards a common realisation
- Confronting his/her professional project to reality
- Making his/her project concrete in spite of the difficulties encountered during the studies and thus increasing his/her motivation
- Developing a critical attitude on available informations
- Better understanding the links between diverse scientific disciplines and study in more detail a scientific topic
- Mastering a study method (work organisation, time management, etc.) and tools (libraries, internet, computer software)
- Developing oral and written communication skills

Main themes

The themes covered are in the field of biology but differ from one group of students to the other. The student can associate to a theme proposed by a teacher or propose their own one.
