DROI2001 Questions of Religious sciences : Christian faith

[15h] 2 credits

This course is taught in the 1st semester

Teacher(s): Philippe Goffinet
Language: French
Level: Second cycle

Aims

This university education given to students reading law who have not taken this subject in their curriculum deals with religious topics at a university level. It aims to offer the believer an understanding of their faith on the same level as his secular knowledge, the non-believer an objective understanding of the Christian faith. Consequently this is not a lecture about deontology or professional ethics but theological studies taking the jurists' peculiar approach into account.

Main themes

Lectures will look into the Christian faith by means of the gospels. Questions about the origin of the gospels will be investigated first, then some chosen texts will be analyzed closely.

- Lectures

Classical type oral teaching.
