### ECGE1313 European Economics

[30h] 4 credits

This course is not taught in 2005-2006

Language: English

Level: First cycle

#### **Aims**

The objective of this course is to provide students with a frame of reference of European realities so that they can understand the nature of European Economics, the particular related issues and the economic policies that have been adopted. This framework should enable them to examine critically the nature of the hypotheses within the theoretical models elaborated in the specialist courses (International Economics, Work Economics, Regional Economics, Industrial Economics etc) and to judge their relevance in understanding and implementing European policies.

#### **Main themes**

The first part of the course is an introduction to the European institutions and basic statistics that impact on the economics policies that have been adopted. The introduction ends with an analysis of the European budget.

The second part examines the objectives of the main European economic policies, the micro- and macro-economic instruments used within these policies and their degree of coordination.
