ECGE1327 Seminar-workshop: Business Strategy Case Studies

[50h] 5 credits

This course is not taught in 2005-2006

Language:

French

Level:

First cycle

Aims

The case studies examined in this course will enable the groups of students to analyse and comment in depth on real business cases. Examining these real company situations described in case studies should enable students to create links between the more theoretical concepts and the concrete and pragmatic fields of application that these concepts permit them to approach. These case studies will significantly encourage the process of knowledge appropriation in which "know-how" is a crucial dimension.
