

GEO1252 Field work in geology

[+32h exercises] 2 credits

Teacher(s): Eric Groessens, Dominique Laduron (coord.)
Language: French
Level: First cycle

Aims

Initiation into the methods of observation, analysis and interpretation of geological phenomena in the field, viewed in their regional context.

Main themes

The 4 days of fieldwork are devoted to an examination of aspects of the geology of Belgium to illustrate, in three dimensions, the basic geological phenomena treated in the courses AGRO1100 and GEO1251. The various features of physical geography are considered in context, and attention is given to the exploitation of rocks and their uses.

Other credits in programs

GEOG12BA Deuxième année de bachelier en sciences géographiques (2 credits)
