GERM1513 Introduction to German linguistics: syntax and pragmatics

[22.5h+5h exercises] 4 credits

This course is not taught in 2005-2006

Language: German
Level: First cycle

Aims

Acquisition of the foundations of German linguistics with respect to German Syntax and Pragmatics. The most fundamental empirical generalizations from the two linguistic fields will be discussed and the theoretical instruments for explaining them within modern linguistic theory.

Main themes

1. Study of syntax and pragmatics/semantics with special reference to German
2. Reading of scientific work within this field
3. Critical discussion of the relevant concepts

Content and teaching methods

The structure des constituants, case, valency/subcategorization, agreement, the positions of the verb in German), the concept of phrase structure(s), the distribution of reflexives and pronouns. The foundations of speech acts and semantic theory.

Other information (prerequisite, evaluation (assessment methods), course materials recommended readings, ...)
